When October Starts Jun 23 2022 JUNIPER As his student, I should've kept my distance. Out of all the guys in the world I could've fallen in love with, it had to be my new teacher. We fell in love slowly, hidden from others. Keeping it secret, and falling deeper each day. But no love is perfect, and we learned it the hard way. When the truth came out and he left town, he left me broken and alone. He's to blame, at least that's what everyone says. But to me, he's still the greatest man I've ever gotten to love. And when October starts, no one can tear us apart.

Tourism and War Sep 14 2021 This is the first volume to fully explore the complex relationship between war and tourism by considering its full range of dynamics; including political, psychological, economic and ideological factors at different levels, in different political and geographical locations. Issues of peace and tourism are dealt with insofar as they pertain to the effects of war on tourism that emerge after the cessation of hostilities. The book therefore reveals how not only location, but also political strategies, accidents of history, transportation linkages, and economic expediency all have played their role in the development and continuation of tourism before, during, and after wartime. It further shows how the effects of war are seldom if ever simply a negation or reversal of the effects of peace on tourism. The volume draws on a range of examples, from medieval times to the present, to reveal the multi-faceted development of tourism amidst and because of conflict in a wide variety of locations, including the Pacific, Europe, the Middle East, North America, Africa and South East Asia, showing the diverse ways in which tourism and war interact. In doing so it explores how some locations have been developed as tourist attractions primarily because of war and conflict, e.g. as resting and training places for troops, and others flourished because of the threat of danger from conflicts to more traditional tourist locations. This thought-provoking volume contributes to the understanding of the interrelationships between war, peace and tourism in many different parts of the world at different scales. It will be valuable reading for all those interested in this topic as well as dark tourism, battlefield tourism and heritage tourism.

Geometrical Vectors Dec 29 2022 Every advanced undergraduate and graduate student of physics must master the concepts of vectors and vector analysis. Yet most books cover this topic by merely repeating the introductory-level treatment based on a limited algebraic or analytic view of the subject. Geometrical Vectors introduces a more sophisticated approach, which not only brings together many loose ends of the traditional treatment, but also leads directly into the practical use of vectors in general curvilinear coordinates by carefully separating those relationships which are topologically invariant from those which are not. Based on the essentially geometric nature of the subject, this approach builds consistently on students' prior knowledge and geometrical intuition. Written in an informal and personal style, Geometrical Vectors provides a handy guide for any student of vector analysis. Clear, carefully constructed line drawings illustrate key points in the text, and problem sets as well as physical examples are provided.

Colonial Lives Aug 13 2021 Colonial Lives offers a rich variety of archival documents in translation which bring to life the political and economic workings of Latin American colonies during 300 years of Spanish rule, as well as the day-to-day lives of the colonies' inhabitants. Intended to complement textbooks such as Burkholder and Johnson's Colonial Latin America by presenting students with primary sources -- the raw materials on which the facts in other textbooks are based -- this reader strives to illustrate the impact of issues such as race, class, gender, sexuality, culture and religion in the daily lives of both natives and colonists alike. The concerns, struggles and perspectives of the inhabitants of colonial Latin America are reflected in transcripts of civil and criminal court cases, administrative reviews, ecclesiastical investigations, Inquisition trials, wills, and letters the editors have included in this reader. Each document

is prefaced by an introduction that places it in the social and political context of the period. The book also includes a glossary of terms and lists of suggested further readings. Most uniquely, the book offers helpful thematic cross-referencing sections and an index of themes which allow instructors to easily adapt the book to their courses and to assign readings according to the criteria of their own specific curriculums.

Caulky Oct 15 2021 Ren is in desperate need of a rebound fling. Lucky for him, the smoking hot contractor he hired has just the tool for the job. The last thing I want is another relationship or another broken heart. All I need are my bees and the occasional hookup to scratch the itch. Okay, maybe meeting up with my hot contractor weekly is a little more than occasional. And maybe the way I'm starting to feel about the guy I've been anonymously chatting with online should concern me. But CaulkyAF doesn't want to meet, and Cole doesn't want anything serious, so what's the worst that could happen?**** Caulky is book 1 in the Four Bears Construction Series and can be read as a stand-alone. This is a funny, steamy MM story guaranteed to make you laugh and swoon. Absolutely NO cheating and NO love triangle. This series does NOT contain shifters, it's the OTHER kind of bears.

Two Wheels South Feb 19 2022 Go on the trip of a lifetime. Two Wheels South shows you how to realize your own journey. Two friends take the motorcycle trip of their life--From Brooklyn to Patagonia. Matias Corea shares his insights on how to prepare, choose the right motorcycle, what to pack, how to plan the route, where to camp and last but not least: How to prepare your mind. Setbacks and breaking down are part of the adventure, but preparation and being on the road teach you the confidence to tackle any problem. Follow Matias Corea and his friend Joel through the American South, Central America over the Darien Gap and beyond, over wooden cracking jungle bridges in Colombia and to dry lake high plateaus in Argentina. Feel the character of the roads and the smell of nature: Riding a motorcycle is one of the purest forms of traveling. After 7 months and 13 countries Matias and Joel have learned a lot while riding down south on their trusty BMW air-cooled G / S overland haulers and are ready to share their experience. Two Wheels South invites you on the experience of a lifetime.
