**Advances in Fluid, Electrolyte, and Acid-base Disorders, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book** Nov 29 2019 Drs. Helio Autran de Moraes and Stephen DiBartola have assembled a comprehensive list of topics on Advances in Fluid, Electrolyte, and Acid-base Disorders. Just some of the many article topics include: Hypoxemia; Respiratory Alkalosis; Respiratory Acidosis; Anion gap and strong ion gap; Metabolic Alkalosis; Hyperchloremic Metabolic Acidosis; High Anion Gap Metabolic Acidosis; Hypercalcemia; Hypocalcemia; Chloride; Magnesium; Phosphorus; Practical management of dysnatremias; Spurious electrolyte disorders; Compensation for acid-base disorders; Fluid therapy: Options and rational selection; Maintenance fluid therapy: Isotonic versus hypotonic solutions; Are colloids bad and what are the options?; Fluid management in patients with trauma; Restrictive versus liberal approach, and more!

**Veterinary Hospitals** Sep 27 2019 When you get sick, you go to the doctor. But where do animals go when they get sick? To the veterinary hospital, of course! The history behind these hospitals, a description of a veterinarian's job, and even information about how to become a veterinarian are all found here—making this a heartwarming exploration of the way humans care for animals of all kinds.

*Equine Nutrition, An Issue of Veterinary Clinics of North America: Equine Practice* Jan 12 2021 Guest edited by Drs Megan Shepherd and Patricia Harris, this issue of Veterinary Clinics: Equine Practice will cover several key areas of interest related to Equine Nutrition. This issue is one of three selected each year by our series Consulting Editor, Dr. Thomas Divers. Articles in this issue include but are not limited to: What all Veterinarians need to know about equine nutrition, How to avoid getting on the wrong side of the regulatory authorities, How to approach a nutritional investigation/assessment, Forage based nutrient deficiencies and toxicities, How can nutrition help with GIT based issues, Nutritional considerations when dealing with an underweight adult or senior horse, Nutritional considerations when dealing with an obese adult or senior horse, Nutrition and muscle, Nutrition and the broodmare, How safe and efficacious are certain nutraceuticals really, and more.

**Equine Nutrition, an Issue of Veterinary Clinics of North America: Equine Practice** Dec 23 2021 Guest edited by Drs Megan Shepherd and Patricia Harris, this issue of Veterinary Clinics: Equine Practice will cover several key areas of interest related to Equine Nutrition. This issue is one of three selected each year by our series Consulting Editor, Dr. Thomas Divers. Articles in this issue include but are not limited to: What all Veterinarians need to know about equine nutrition, How to avoid getting on the wrong side of the regulatory authorities, How to approach a nutritional investigation/assessment, Forage based nutrient deficiencies and toxicities, How can nutrition help with GIT based issues, Nutritional considerations when dealing with an underweight adult or senior horse, Nutritional considerations when dealing with an obese adult or senior horse, Nutrition and muscle, Nutrition and the broodmare, How safe and efficacious are certain nutraceuticals really, and more.

**Pediatrics, An Issue of Veterinary Clinics of North America: Small Animal Practice**, Mar 14 2021 This issue focuses on pediatric disorders in dogs and cats. Topics will include: clinical pathology of dogs and cats, pediatric neutering, pediatric immunization, nutrition, seizure disorders, canine pediatric dentistry, pediatric feline upper respiratory disease, neonatal fading syndrome, holistic pediatric medicine, management of the cleft palate, and urinary ectopia.

*Bovine Health: An Issue of Veterinary Clinics* Oct 21 2021 Bovine animals are the most commonly raised animals as livestock for meat, milk, dung and other products and are often used as draft animals and riding animals. The biological subfamily Bovine includes cattle, bison, African buffalo, the water buffalo, the yak, etc. These bovine animals need special care and treatment as they suffer from various diseases. One of the most common and serious disease found in bovine animals is bovine spongiform encephalopathy (BSE), also known as mad cow disease. Other diseases like blackleg, bluetongue, foot rot, may also be found in bovine animals. Bovine health is not only characterised as a veterinarian issue, but also a public health issue as many diseases can be transmitted to humans through milk or meat. Veterinary medicine is the sub-field of medicine which involves the prevention, diagnosis and treatment of injury, disease and disorder in animals. This book provides comprehensive insights into the field of bovine health. It also presents researches and studies performed by experts across the globe. It is a resource guide for experts as well as students.

*Ruminant Ophthalmology, An Issue of Veterinary Clinics of North America: Food Animal Practice, E-Book* Jul 18 2021 Ruminant Ophthalmology, An Issue of Veterinary Clinics of North America: Food Animal Practice, E-Book

**Diagnostic Radiology, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book** Aug 31 2022 This issue, guest edited by Angela Marolf, focuses on small animal Veterinary Diagnostic Radiology. Articles include: Ultrasound Imaging of the Musculoskeletal System, CT

Imaging of the Musculoskeletal System, MRI Imaging of the Musculoskeletal System, Ultrasound of the Hepatobiliary System and Pancreas , CT and MRI Imaging of the Hepatobiliary System and Pancreas, CT Imaging in Oncology, PET/CT Imaging, and more!

**Minimally Invasive Fracture Repair, an Issue of Veterinary Clinics of North America: Small Animal Practice** Feb 10 2021 This issue of Veterinary Clinics: Small Animal Practice, guest edited by Drs. Karl Maritato and Matthew Barnhart, focuses on Minimally Invasive Fracture Repair. Articles in this issue include, but are not limited to: Biomechanics of Fracture Fixation; Challenges in Minimally Invasive Fracture Repair; Minimally Invasive Osteosynthesis Fracture Reduction Techniques; Percutaneous Pinning for Fracture Repair; Minimally Invasive Plate Osteosynthesis Techniques for the Humerus; Minimally Invasive Plate Osteosynthesis Techniques for the Radius and Ulna; Minimally Invasive Osteosynthesis (MIO) Techniques of the Femur; Minimally Invasive Osteosynthesis Techniques for Articular Fractures; Unique Differences of Minimally Invasive Fracture Repair in the Feline; Perioperative Imaging in Minimally Invasive Osteosynthesis; Interlocking Nails for Minimally Invasive Osteosynthesis; Minimally Invasive Plate Osteosynthesis Techniques for Tibia and Fibula; Minimally Invasive Plate Osteosynthesis Techniques for Meta-bones; Minimally Invasive Osteosynthesis Techniques for Sacroiliac Luxation; and Minimally Invasive Plate Osteosynthesis Techniques for Arthrodesis.

*Clinical and Diagnostic Pathology, An Issue of Veterinary Clinics: Exotic Animal Practice* Mar 26 2022 This issue will explore the latest research and clinical information concerning pathology of exotic pet species. The majority of the issue will cover the use of clinical pathology in pet birds, reptiles, rabbits, amphibians, fish, and small mammals. Other articles will cover diagnosis of renal disease in rabbits, diagnosis of liver disease of ferrets, thyroid and sexual hormone fluctuation in chinchillas.

**Current Topics in Clinical Pharmacology and Therapeutics** May 28 2022 Guest editor and expert Dawn M. Boothe provides the latest updates in veterinary pharmacology and therapeutics. Topics will include antimicrobial therapy, antimicrobial resistance, antibiotic use in the surgical patient, evidence-based medicine in small animal therapeutics, pharmacogenomics, cytochrome p450 and its role in drug interactions, nonsteroidal antiinflammatories, drugs and endocrine diseases, cardiovascular drug therapy, anticonvulsant therapy, compounding and much more!

*Immunology, An Issue of Veterinary Clinics of North America: Food Animal Practice* Sep 19 2021 This issue of Veterinary Clinics: Food Animal Practice, guest edited by Dr. Christopher Chase in collaboration with Consulting Editor Dr. Robert Smith, focuses on Ruminant Immunology. Article topics include: Herd immunity: an epidemiologist's view; Genetics of immunoresponsive and correlates of immunity; Microbiome and immunity: an evolving field; Vaccine administration dos and don'ts (endotoxin stacking; delayed MLV); Mycoplasma bovis: interactions with the immune system and failure to generate an immune response; Nutraceuticals and their effect on immune response; Adjuvants; Immunology of maximizing passive transfer; Mucosal immunity and common mucosal response; Vaccinating in the face of maternal immunity; and Gamma Delta T cells in ruminants: their role, function, and importance.

*Feedlot Processing and Arrival Cattle Management, An Issue of Veterinary Clinics of North America: Food Animal Practice*, Nov 02 2022 Guest Edited by Drs. Brad White and Daniel Thomson, this issue focuses on Feedlot Processing and Arrival Cattle Management. Articles include: Management of pre-conditioned calves / impacts of pre-conditioning, Vaccinations, Pregnancy management, Internal and external parasite management, Health equipment management, Feeding Holsteins, Starting calves on feed, and more!

*Wound Management in the Horse, An Issue of Veterinary Clinics of North America: Equine Practice* Jun 28 2022 This issue of Veterinary Clinics: Equine Practice, edited by Dr. Earl Michael Gaughan, focuses on Wound Management in the Horse, with topics including: Diagnostic Approaches to Understanding Equine Limb Wounds; Wounds over Synovial Structures; Wounds with Special Challenges, such as exposed bone, marked hemorrhage, genital and mobile sites; Wound Cleansing and Hygiene; Suture Selection and Patterns; Topical Wound Medications; "Non-Healing" Wounds; Medical Therapy in Wound Management; Regenerative Therapies in Wound Management; Bandages, Casts, and External Support; and LASER Therapy.

**Diseases of Donkeys and Mules, An Issue of Veterinary Clinics of North America: Equine Practice** Oct 09 2020 This issue of Veterinary Clinics: Equine Practice, guest edited by Dr. Ramiro Toribio in collaboration with Consulting Editor Dr. Thomas Divers, is devoted to Diseases of Donkeys and Mules. Topics include: Endocrine and metabolic disorders of donkeys; Gastrointestinal disorders of donkeys and mules; Clinical pathology of donkeys; Genetics, evolution, physiology in donkeys/mules; Nutrition and malnutrition; Donkey and mule welfare; Dermatological disorders of donkeys/mules; Anesthesia, analgesia, and sedation in donkeys/mules; Dental disorders of donkeys; Clinical evaluation and preventative care of the donkey; Respiratory disorders of donkeys; Donkey and mule behavior; Clinical Pharmacology of donkeys; Key aspects of donkey and mule reproduction; and Foot Care and Practical Farriery for the Donkey.

**Small Ruminants, An Issue of Veterinary Clinics of North America: Food Animal Practice** Feb 22 2022 Guest edited by Dr. Michelle A. Kutzler and Dr. Cynthia Wolf, this issue of Veterinary Clinics: Food Animal Practice will cover several key areas of interest related to Small Ruminants. This issue is one of three selected each year by our series Consulting Editor, Dr. Robert A. Smith. Articles in this issue include but are not limited to: Abdominal imaging in small ruminants-liver, spleen, gastrointestinal tract and lymph nodes, Imaging of the urinary and reproductive tract in small ruminants, Pain management in small ruminants, Management of urologic conditions in small ruminants, Hematologic conditions of small ruminants, Management of reproductive diseases in male small ruminants, Resuscitation Compression for Newborn Sheep, Estrus synchronization in the sheep and goat, Udder health for dairy goats, Update on lentiviruses in small ruminants, Reindeer veterinary care for small ruminant practitioners, Epizootic hemorrhagic disease (EHD) and CWD in cervids, Secure sheep & wool supply, Animal welfare concerns for small ruminant producers, Hysteroscopic imaging in camelids, and more.

*Forelimb Lameness, an Issue of Veterinary Clinics of North America: Small Animal Practice, Volume 51-2* Aug 26 2019 This issue of Veterinary Clinics: Small Animal Practice, guest edited by Drs. Kevin P. Benjamino and Kenneth A. Bruecker, will focus on Forelimb Lameness. This is one of six issues each year. Articles in this issue include, but are not limited to: Gait Analysis and Kinematics, Assessment of orthopedic versus neurologic causes of gait change, Common pathology associated with the digits and metacarpal region Carpal injuries: from fractures to hyperextension injuries, Physeal injuries and angular limb deformities, The Shoulder Joint and Common Abnormalities, Common neoplastic diseases affecting the thoracic limb, Cervical spondylomyelopathy, IVDD and brachial plexus (peripheral nerve) injuries, Juvenile disease processes affecting the forelimb, Advanced Imaging of the forelimb, Soft tissue injuries affecting the forelimb, Rehabilitation for forelimb injuries, and Elbow Dysplasia.

*Palliative Medicine and Hospice Care, An Issue of Veterinary Clinics of North America: Small Animal Practice* Aug 07 2020 This issue of Veterinary Clinics: Small Animal Practice, edited by Dr. Katherine J. Goldberg, focuses on Advances in Palliative Medicine. Article topics include: Pet Hospice Program at Colorado State University; Hospice Care Service at Michigan State University; Pain and Palliative Care Service at Angell Memorial Animal Hospital; Current topics in serious illness and palliative medicine: a curricular initiative at Cornell University; Development and use of the Serious Veterinary Illness Conversation Guide; Ethics of palliative medicine in veterinary patients; Overcoming obstacles to palliative care: what can we learn from our MD colleagues?; Caregiver burden and veterinary client mental health concerns; Capacities of animal patients: how cognitive ethology can (and should) inform palliative and end of life care; Palliative care challenges from the oncology service in a veterinary teaching hospital; Private practice oncology: viewpoint on end of life decision-making; Advances in pain management, palliative care applications; Advances in neurology, palliative care applications; Updates and advances in cognitive dysfunction; Perspectives on nutrition and feeding; Palliative care services at home: viewpoint from a multi-doctor practice; Objective exploration of euthanasia: what do (and don't) we know about adverse effects?; Integrating a social worker into the veterinary team for palliative care and hospice; and Conflict management.

**Behavior, An Issue of Veterinary Clinics of North America: Exotic Animal Practice Ebook** Dec 11 2020 This issue of Veterinary Clinics: Exotic Animal Practice, guest edited by Dr. Marion R. Desmarchelier, focuses on Behavior. This is one of three issues each year selected by the series consulting editor, Dr. Jörg Mayer. Articles in this issue include, but are not limited to: Behavior modifications for the exotic pet practitioner, Psychopharmacology for the exotic pet practitioner, Ferret behavior medicine, Rabbit behavior medicine, Pot-bellied pig behavior medicine, Abnormal repetitive behaviors and self-mutilations in small mammals, Medical causes of feather damaging behavior, Avian behavior consultation for

the exotic pet practitioner, Bird of Prey behavior for the avian practitioner, Clinical reptile behavior, Amphibian behavior for the exotic pet practitioner, Fish behavior for the exotic pet practitioner, Invertebrate behavior for the exotic pet practitioner, and Non-human primate clinical behavior

*Clinical Veterinary Dentistry, An Issue of Veterinary Clinics: Small Animal Practice*, Oct 01 2022 Current, important information on clinical veterinary dentistry for all small animal practitioners! This issue will present articles on standards of care, therapeutic decision making, oral and dental imaging equipment and techniques, radiographic imaging, oral inflammation, exodontics, oral and maxillofacial surgery, surgical equipment for oral surgery, laser and electro/radiosurgery in the oral cavity, anesthesia and pain management, and more!

**Nutrition, An Issue of Veterinary Clinics of North America: Exotic Animal Practice**, Jul 06 2020 Dr. Jörg Mayer has assembled an expert panel of authors on the topic of nutrition in exotic animals. Articles include: Prescription diets for exotic pets, Supplements for exotic pets, Nutrition for reptiles, Nutrition for avians, Nutrition for amphibians, Nutrition for fish, Nutrition for marsupials, Nutrition for rodents, and Nutrition for Rabbits.

*Technological Advances in Exotic Pet Practice, an Issue of Veterinary Clinics of North America: Exotic Animal Practice* Jan 30 2020 This issue of Veterinary Clinics: Exotic Animal Practice, Guest Edited by Dr. Minh Huynh in collaboration with Consulting Editor, Dr. Joerg Mayer, focuses on Technological Advances in Exotic Pet Practice. Topics covered in this issue include: ?Medical Applications for 3D Printing in Exotic Pet Medicine; Use of Bone Plates in Exotic Pet Medicine; Smartphone-based Devices for Medical Use in Exotic Pet Medicine; Technological Advances in Endoscopic Equipment and Endosurgery in Exotic Pet Medicine; Technological Advances in Surgical Equipment in Exotic Pet Medicine; Technological Advances in Diagnostic Imaging in Exotic Pet Medicine; Technological Advances in Exotic Pet Anesthesia; Advances in Exotic Pet Clinical Pathology; Technological Advances in Herpetology; Advances in Therapeutics and Delayed Drug Release; Permanent Implantable Devices in Exotic Pet Medicine; Technological Advances in Exotic Pet Wound Management; and Dissemination of Medical Information in Exotic Pet Practice

*The Veterinary Clinics of North America* Mar 02 2020

**Cancer in Companion Animals, an Issue of Veterinary Clinics of North America: Small Animal Practice** Apr 02 2020 This issue of Veterinary Clinics: Small Animal Practice, edited by Dr. Philip Bergman and Dr. Craig Clifford, focuses on Cancer in Companion Animals. Topics include: Novel Non-Invasive Diagnostics; MCT: Cytologic and Histologic Grading Update; Sentinel LN & Sx Oncology Update; RT Oncology Update; Novel Prescriptions for LSA; Targeted Prescriptions Update; Electrochemotherapy; Tumor Ablation; Anorexia and the Cancer Patient; Histiocytic Sarcoma and HSA; Cancer Immunotherapies; and Personalized Cancer Medicine.

**Honey Bee Veterinary Medicine, An Issue of Veterinary Clinics of North America: Food Animal Practice , E-Book** Jan 24 2022 In this issue of Veterinary Clinics: Food Animal Practice, Guest Editor Jeffery R. Applegate brings his considerable expertise to the topic of Honey Bee Veterinary Medicine. Top experts in the field cover key topics such as Apiculture, Diseases of the Honey Bee, Population Medicine, Immunology, Nutrition, and more. Provides in-depth, reviews in Honey Bee Veterinary Medicine, providing actionable insights for veterinary practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field; Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews. Contains 15 relevant, practice-oriented topics including Pesticides and the Impact on Honey Bees; Practical Applications in Honey Bee Genetics; Foreign Pests and Diseases as Potential Threats to North American Apiculture; Honey Bee Welfare and Standards of Humane Euthanasia; and more.

**Equine Pharmacology, An Issue of Veterinary Clinics of North America: Equine Practice, E-Book** Sep 07 2020 This issue of Veterinary Clinics: Equine Practice focuses on Equine Pharmacology. Guest editor Dr. Gary Magdesian has assembled an expert team of authors on topics such as: Update on Anti-Inflammatories: NSAIDS; Update on Corticosteroids and Immune Suppressive Therapies; Antiherpetic Drugs; Update on R Equi Therapeutics; Update on Equine Protozoal Myeloencephalitis Therapeutics; Update on Pain Management in Horses; Inhalational Therapies; Update on Therapeutics for Endocrine Disorders; Cardiovascular Therapies; Therapeutics for Equine Gastric Ulcer Syndrome; Neonatal Pharmacology; and Update on Compounding for the Equine Practitioner.

**Raising Commercial Dairy Calves, an Issue of Veterinary Clinics of North America: Food Animal Practice: Volume 38-1** Dec 31 2019 In this issue of Veterinary Clinics of North America: Food Animal Practice, guest editors Drs. R. M. Thornsberry, Alois (Al) F. Kertz, and Jim K. Drackley bring their considerable expertise to the topic of Raising Commercial Dairy Calves. Focusing on the care of commercial dairy calves and the commercial dairy calf industry, top experts in the field cover key topics such as predicting post-weaning dairy calf performance; the practicing veterinarian's role in the veal calf industry; viral and bacterial causes of intestinal disease in young dairy calves: acceptable control measures; cryptosporidiosis; and more. Contains 14 relevant, practice-oriented topics including changing demographics of the commercial dairy calf industry; acceptable young calf vaccination strategies; dairy calf nutrition through weaning: recent research findings; nutritional programs for commercial replacement dairy heifer operations; predicting pre-weaning dairy calf performance: the calf toolkit; and more. Provides in-depth clinical reviews on raising commercial dairy calves, offering actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.

*Toxicology, an Issue of Veterinary Clinics of North America: Food Animal Practice, Volume 36-3* Nov 09 2020 This issue of Veterinary Clinics: Food Animal Practice, guest edited by Dr. Steve Ensley and Dr. Tim Evans, focuses on Toxicology. Topics include: Hepatotoxic Plants that Poison Livestock; Plant-induced photosensitivity and dermatitis in livestock; Plant-induced reproductive disease, abortion and teratology in livestock; Myotoxic and cardiovascular toxic plants; Toxic plants that damage the gastrointestinal and urinary systems and miscellaneous toxic plants; Diagnostic guidelines for ruminant toxicosis; The use of blood/liver analysis to evaluate trace mineral status in ruminant livestock; Water quality for cattle; Biofuels coproducts tolerance and toxicology for ruminants; Ruminant mycotoxicosis; Commercial and industrial chemical hazards for ruminants; Safety of antibiotic drugs in food animals: comparison of findings from preapproval studies and postapproval experience in the United States with safety information in published literature; Treatment of animal toxicosis: a regulatory perspective, Selenium toxicosis; Sulfur toxicosis; Lichen toxicosis caused by Xanthoparmelia; Fescue/ergot toxicosis in ruminants; and Cu toxicosis in small ruminants and camelids.

*Neurology, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book* Dec 03 2022 This issue of Veterinary Clinics of North America: Small Animal Practice on Neurology, edited by Sharon Kerwin and Amanda Taylor, includes: Advances in High field MRI; Acupuncture for neurologic conditions; Head trauma; Pituitary hypophysectomy; Acute non-compressive disc extrusion and hydrated nucleus pulposus extrusion; Discospondylitis; Minimally Invasive Vertebral Column Surgery; Vascular events in the Brain; Fungal infections of the CNS; Feline Seizures; Clinical evaluation of the feline neurologic patient; Intervertebral disc disease, recent advances in therapy; Three-dimensional printing role in neurologic disease; and Diffusion tensor imaging in spinal cord injury.

*Behavior, an Issue of Veterinary Clinics of North America: Exotic Animal Practice* May 16 2021 This issue of Veterinary Clinics: Exotic Animal Practice, guest edited by Dr. Marion R. Desmarchelier, focuses on Behavior. This is one of three issues each year selected by the series consulting editor, Dr. Jörg Mayer. Articles in this issue include, but are not limited to: Behavior modifications for the exotic pet practitioner, Psychopharmacology for the exotic pet practitioner, Ferret behavior medicine, Rabbit behavior medicine, Pot-bellied pig behavior medicine, Abnormal repetitive behaviors and self-mutilations in small mammals, Medical causes of feather damaging behavior, Avian behavior consultation for the exotic pet practitioner, Bird of Prey behavior for the avian practitioner, Clinical reptile behavior, Amphibian behavior for the exotic pet practitioner, Fish behavior for the exotic pet practitioner, Invertebrate behavior for the exotic pet practitioner, and Non-human primate clinical behavior

**Effective Communication in Veterinary Medicine, An Issue of Veterinary Clinics of North America: Small Animal Practice** Jan 04 2023 This issue of Veterinary Clinics: Small Animal Practice, guest edited by Drs. Christopher A. Adin and Kelly D. Farnsworth, will cover Effective

Communication in Veterinary Medicine. This is one of six issues each year. This issue will provide insights on the most critical and contemporary issues facing veterinary practitioners—from compassion fatigue to the use of social media. The material can be applied by veterinarians both inside and outside the workplace. Articles in this issue include, but are not limited to: Generational Difference in the Team, Intercultural Communication with Clients, Valuing Diversity in the Team, Compassion Fatigue, Suicide Warning Signs and What to Do, Performance Evaluation for Underperforming Employees, Leading and Influencing Culture Change, Veterinary Clinical Ethics and Patient Care Dilemmas, The Mentor-Mentee Relationship, and Communicating Patient Quality and Safety in Your Hospital.

**Wound Management, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book** Jun 16 2021 This issue of Veterinary Clinics of North America: Small Animal Practice, with Editor Dr. Marije Risselada, focuses on Wound Management. Article topics include: Initial management of traumatic wounds; Perforating thoracic and abdominal wounds; Systemic and local management of burn wounds; Management of radiation side effects to the skin; Debridement techniques and non-NPWT wound management; Negative Pressure Wound Therapy; Wound closure, tension relieving techniques and local flaps; Axial pattern flaps; Free grafts and microvascular anastomoses.

**Advances in Gastroenterology, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book** May 04 2020 This issue of Veterinary Clinics: Small Animal Practice, guest edited by Dr. Frédéric P. Gaschen, focuses on Advances in Gastroenterology. Articles in this issue include, but are not limited to: Esophagitis, Gastroprotective therapy, Gastric motility disorders in dogs and cats, Aerodigestive diseases in dogs, Digestive diseases in brachycephalic dogs, Acute hemorrhagic diarrhea syndrome in dogs, From bench top to clinics: How to use new tests to diagnose and treat dogs with chronic enteropathies, Differentiating IBD from alimentary lymphoma in cats, Canine protein-losing enteropathies and systemic complications, Impact of GI microbiome changes in canine and feline digestive diseases, Dietary and nutritional approaches for the management of chronic enteropathy in dogs and cats, Value of probiotics in canine and feline gastroenterology, and Fecal microbiota transplantation in the dog.

*Topics in Equine Anesthesia, An Issue of Veterinary Clinics: Equine Practice*, Apr 26 2022 The equine practitioner will find this comprehensive issue packed with useful, practical information on anesthesia. Topics include neuromuscular blocking agents and monitoring, anesthesia for dystocia/neonatal, anesthesia for colic, inhalant anesthetics, cardiac output monitoring, local anesthetic techniques, morbidity and mortality and risk, cardiovascular support, respiratory mechanics and mechanical ventilation, total intravenous anesthesia, balanced anesthesia and constant rate infusions, and much more!

**Practical Guide to Veterinary Hospital Design** Aug 19 2021

*When Your Pet Dies* Nov 21 2021 Affirming a pet owner's struggle with grief when his or her pet dies, this book helps mourners understand why their feelings are so strong and helps them overcome the loss. Included are practical suggestions for mourning and ideas for remembering and memorializing one's pet. Among the issues covered are understanding the many emotions experienced after the death of a pet; understanding why grief for pets is unique; pet funerals and burial or cremation; celebrating and remembering the life of one's pet; coping with feelings about euthanasia; helping children understand the death of their pet; and things to keep in mind before getting another pet.

**Telemedicine, an Issue of Veterinary Clinics of North America: Small Animal Practice** Apr 14 2021 In this issue of Veterinary Clinics: Small Animal Practice, guest editor Dr. Aaron Smiley brings his considerable expertise to the topic of Telemedicine. Given the sudden and surprising challenges brought forth by the COVID-19 pandemic, it is more important than ever for practicing veterinarians to be up to date on the current best practices surrounding telehealth and small animal care. In this issue, top experts in the field explore the many nuances of implementing telehealth in veterinary practice, providing readers with the latest best practices in several key areas. Contains 11 practice-oriented topics including wearables, feline arthritis, oncology, anesthesia, technology, hospice, and more. Provides in-depth clinical reviews on telemedicine, offering actionable insights for clinical practice. Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews.

**Theriogenology, An Issue of Veterinary Clinics: Small Animal Practice - E-Book** Jun 04 2020 Guest Editors Catherine Lamm and Chelsea Makloski review articles in theriogenology for the small animal practitioner. Topics will include: managing the reproductive cycle in the bitch, clinical techniques of artificial insemination in dogs, current advances in gestation and parturition in cats and dogs, clinical approaches to infertility in the bitch, the problem stud dog, guide to emergency interception during parturition in the dog and cat, clinical approach to abortion, still birth and neonatal death in cats and dogs, disorders of sexual development, common lesions in the male reproductive tract of cats and dog, common lesions in the female reproductive tract of cats and dogs, bacterial reproductive pathogens of cats and dogs, viral reproductive pathogens of cats and dogs, and more!

**Hepatology, An Issue of Veterinary Clinics of North America: Small Animal Practice, E-Book** Jul 30 2022 This issue of Veterinary Clinics of North America: Small Animal Practice, with Editor Dr. Jonathan Lidbury, focuses on Hepatology. Article topics include: Laboratory evaluation of the liver; Getting the most out of liver biopsy; Hemostatic disorders associated with hepatobiliary disease; Acute liver injury; Canine copper associated chronic hepatitis; Canine idiopathic chronic hepatitis; Feline hepatic lipidosis; Hepatobiliary neoplasia in dogs and cats; Diagnostic imaging of the hepatobiliary system; Hepatic encephalopathy; Canine idiopathic chronic hepatitis; Feline cholangitis.

**Developmental Programming in Livestock Production, an Issue of Veterinary Clinics of North America: Food Animal Practice** Oct 28 2019 This issue of Veterinary Clinics: Food Animal Practice, edited by Dr. Rick Funston and Dr. J. Travis Mulliniks, is dedicated to Developmental Programming in Livestock Production. Topics include: Fetal Growth and Development; Cellular Mechanisms and Epigenetic Changes; Overgrowth Syndrome; Effects on Progeny and Nutrient Partitioning; Effects on Neonatal Mortality; Effects on Tissue Growth and End Product; Effects on Fertility; Effects on Animal Health and Immune Function; Effects on Dam and Progeny Milk Production; Multigenerational Effects; Developmental Resiliency: in utero Adaptation to Environmental Stimuli; and Developmental Programming in a Beef Production System.
