The Hundred Secret Senses is an exultant novel about China and America, love and loyalty, the identity we invent and the true selves we discover along the way. Olivia Laguni is half-Chinese, but typically American in her uneasiness with her patchwork family. And no one in Olivia's family is more embarrassing to her than her sister, Kwan Li. For Kwan speaks mangled English, is cheerfully deaf to Olivia's sarcasm, and sees the world through her "yin eyes." Even as Olivia details the particulars of her decades-long grudge against her sister (which, among other things, is a source of infuriatingly good advice), Kwan Li is telling her own story, one that sweeps through the splendor, squalor, and violence of Manchu China. And out of the friction between her narrators, Ann Banerjee creates a work that illuminates both the present and the past sweetly, sadly, hilariously, with searingly beautiful prose. "Truly magical...unforgettable...this novel...shimmer[s] with meaning."--San Diego Tribune "The Hundred Secret Senses doesn't simply return to a world but burrows more deeply into it, following new trails to surprising revelations."--Newsweek It's been 21 days since the hundred landed on Earth. They're the only humans left on the planet in centuries... or so they thought. Book 2 in The 100 series, now a popular show on the CW. Facing an unknown enemy, Wells attempts to keep the group together. Clarke strikes out for Mount Weather in search of other colonists, while Bellamy is determined to rescue his sister, no matter the cost. And back on the ship, Glass faces an unthinkable choice between the love of her life and life itself. In this pulse-pounding sequel to The 100, secrets are revealed, beliefs are challenged, and relationships are tested. And the hundred will have to survive the only way they can--together. One of the U.S. government's leading China experts reveals a strategy fueling that country's rise - and how Americans have been seduced into helping China overtake the world's leading superpower. For more than forty years, the United States has played an indispensable role in helping the Chinese government build a booming economy, develop its scientific and military capabilities, and take its place on the world stage, in the belief that China's rise will bring us cooperation, diplomacy, and free trade. But what if the "China Dream" is to replace us, just as America replaced the British Empire, with a shot? Based on interviews with Chinese defectors and newly declassified, previously undisclosed national security documents, The Hundred-Year Marathon reveals China's secret strategy to supplant the United States.

the world's dominant power, and to do so by 2049, the one-hundredth anniversary of the founding of the Republic. Michael Pillsbury, a fluent Mandarin speaker who has served in senior national security positions in the U.S. government since the days of Richard Nixon and Henry Kissinger, draws on his decades of contact with the "hawks" in China's military and intelligence agencies and translates their documents, speeches, and actions to show how the teachings of traditional Chinese statecraft underpin their actions. He offers an inside look at how the Chinese really view America and its leaders – as barbarians who will be the architects of their own downfall. Pillsbury also explains how the U.S. government has helped – sometimes unwittingly and sometimes deliberately – to make this "China Dream" come true, and he calls for the United States to implement a new, more realistic strategy toward China as it really is, and not as we might wish it to be. The Hundred-Year Marathon is a call as we face the greatest national security challenge of the twenty-first century. Make Your Study Your Devotions Serious.
