The Birth of the Hospital in the Byzantine Empire Apr 26 2022 Medical historians have traditionally claimed that modern hospitals emerged during the latter half of the nineteenth century. Premodern hospitals, according to many scholars, existed mainly as refuges for the desperately poor and sick, providing patients with little or no medical care. Challenging this view in a compelling survey of hospitals in the East Roman Empire, Timothy Miller traces the birth and development of Byzantine xenones, or hospitals, from their emergence in the fourth century to their decline in the fifteenth century, just prior to the Turkish conquest of Constantinople. These sophisticated medical facilities, he concludes, are the true ancestors of

modern hospitals. In a new introduction to this paperback edition, Miller describes the growing scholarship on this subject in recent years.

The Heart of Russia Jun 04 2020 In the 1830s and 1840s, increasing numbers of Russians renounced the modernized, secularized, Westernized Russia created by Peter the Great in an effort to revive alternative lifestyles based on Orthodox spirituality and values. This effort found expression in a revival of monasticism that began in the era of Nicholas I and would last for the duration of the imperial period, brought to an end only by the cataclysm of revolution and repression of the new Bolshevik regime. Suppressed by the communists, Russian monasticism experienced another revival in the post-World War II era and again in the post-Soviet period, demonstrating that the impulse to renounce the contemporary world for the cloister is a central pattern of Russian religiosity. This book is the first comprehensive analysis of these monastic revivals, presenting a

fundamentally new picture of religion in modern Russia. Scott Kenworthy's approach is that of a contextualized microhistory: an in-depth study of one monastic complex, framed within research on monasticism more broadly. The case study here is Russia's largest and most famous monastery, the Trinity-Sergius Lavra in Sergiev Posad, near Moscow. With the collapse of the Soviet Union, the Russian Orthodox Church is again experiencing a revival, and monasticism is playing a central role in this resurgence. In the search to recover the past, Russian Orthodox are turning to the nineteenth century revival as a normative model. Numerous Russians are once again renouncing the contemporary world--in this case, both the socialist past and the post-socialist capitalist present--and opting for a mode of life that represents a return to past values. Monasteries are again foci of popular piety as well as of important publishing activities, and their spirituality is regarded as the purest expression of Orthodox ideals. This

book provides an essential basis for understanding Orthodoxy in its historical context and its contemporary manifestations.

The Rough Guide to Venice & the Veneto Jan 12 2021 The Rough Guide to Venice and the Veneto is the definitive handbook to Europe's most beautiful city and its hinterland. The guide includes detailed accounts of all Venice's monuments and museums, from San Marco to the far-flung islands. There is vivid background on the city's history and culture, with the lowdown on the Biennale, Carnevale and other special events. For every area, there are comprehensive reviews of restaurants, bars and accommodation in every price range. Finally, there is detailed coverage of Verona, Padua, Vicenza, Treviso and a host of other Veneto towns and sights.

The Monastic Health Care System and the Development of the Hospital in Late Antiquity Dec 03 2022

Medieval Healthcare and the Rise of Charitable Institutions Nov 02 2022 Medieval Healthcare and the Rise of Charitable Institutions: The History of the Municipal Hospital examines the development of medieval institutions of care, beginning with a survey of the earliest known hospitals in ancient times to the classical period, to the early Middle Ages, and finally to the explosion of hospitals in the twelfth and thirteenth centuries. For Western Christian medieval societies, institutional charity was a necessity set forth by the religion's dictums—care for the needy and sick was a tenant of the faith, leading to a unique partnership between Christianity and institutional care that would expand into the fledging hospitals of the early Modern period. In this study, the hospital of Saint John in Brussels serves as an example of the developments. The institution followed the pattern of the establishment of medieval charitable institutions in the high Middle Ages, but diverged to become

an archetype for later Christian hospitals.

Clare of Assisi Sep 07 2020 In Clare of Assisi, Joan Mueller provides an accessible translation of Clare of Assisi's four letters to Agnes of Prague. The letters bring to life a dynamic moment in the history of women's spirituality. Agnes of Prague, a Bohemian princess, rejected an offer of marriage from the German emperor Frederick II and then built a monastery and hospital from her royal dowry. She wrote to Clare for instructions on how to establish this monastery in the Franciscan spirit. In her letters responding to Agnes, Clare reveals what is essential to the Franciscan life, how to become a person of prayer and of joy, and the spiritual benefits of living a simple and poor lifestyle. Clare of Assisi makes these letters available to all readers. Chapters are Clare's First Letter to Agnes, *Clare's Second Letter to Agnes, - *Clare's Third Letter to Agnes, - *Clare's Fourth Letter to Agnes, - and *Choosing Poverty: A Contemporary Choice.

The Pantokrator Monastery in Constantinople

Nov 21 2021 The Monastery of Pantokrator, founded by John II Komnenos and his wife Piroska-Irene, is not only one of the most important and most impressive monastic complexes of the Komnenian age, it is also one

of the few to occupy a key position in the life of Constantinople in the Palaiologan age, given that its mortuary chapel (Heron) was also the last resting place of many members of the latter dynasty. The first attempt to chronicle its history, based on the texts known at the time, was undertaken by G. Moravcsik (1932).

Interest was rekindled by P. Gautier's critical edition of its Typikon (1971), and more recently by restoration work on its buildings. This volume brings together a comprehensive selection of all the texts concerning or connected with the Monastery of Pantokrator, and through them it demonstrates the Monastery's importance and its role throughout the history of the Byzantine Empire—a role that has received insufficient attention, given that older studies have tended to focus on the 12th century. The texts cover the situation in Constantinople before the Monastery was founded, the historical and cultural context within which it was established, its Typikon (monastic formulary), the descriptions of Slav

and Western travellers, the Byzantine texts (homiletic, historical, hagiographic, and poetic) relating to the Monastery and its history from the 12th to the 15th century, the Byzantine officials associated with it, and the celebration of the principal festivals in its churches. It also contains critical editions of and commentaries on the two versions of the Synaxarion of Irene Komnene, a speech referring to the Empress's associate in the construction of the Monastery, another on the translation of the icon of St. Demetrios from the Church of St. Demetrios in Thessalonica to the Monastery of Pantokrator, an Office of the Translation of the Holy Stone, the verse Synaxarion composed for the consecration of the Monastery, and the known and unpublished poems by Byzantine poets (12th-15th c.) relating to it, as well as an extensive bibliography.

Abandoned Hospitals Jul 06 2020
It seems peculiar that hospitals—places where people's lives are saved—can be downright creepy once they're abandoned. Leftover medical

instruments, stained walls, and mysterious sounds all contribute to the unsettling feeling one gets once inside. Luckily, readers won't have to travel to deserted hospitals around the world. They can tour them in the pages of this hair-raising volume. They'll visit the Taunton State Hospital in Massachusetts, Old Changi Hospital in Singapore, and others. Plenty of history is mixed in with the odd anecdotes connected with each, and a chilling design and images add to the eerie ambience.

The Cambridge History of Medieval Monasticism in the Latin West Feb 10 2021
Monasticism, in all of its variations, was a feature of almost every landscape in the medieval West. So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds. While there is enormous interest in medieval monasticism among Anglophone scholars,

language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe. The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism, from Late Antiquity to the end of the Middle Ages. The essays, specially commissioned for this volume and written by an international team of scholars, with contributors from Australia, Belgium, Canada, England, France, Germany, Italy, the Netherlands, Spain, Switzerland, and the United States, cover a range of topics and themes and represent the most up-to-date discoveries on this topic.

Piroska and the Pantokrator Jun 16 2021 This book is about the Christ Pantokrator, an imposing monumental complex serving monastic, dynastic, medical and social purposes in Constantinople, founded by Emperor John II Komnenos and Empress Piroska-Eirene in 1118. Now called the Zeyrek Mosque, the second largest Byzantine religious edifice after Hagia Sophia still standing in Istanbul represents the most remarkable architectural and the most ambitious social project of the Komnenian dynasty. This volume approaches the

Pantokrator from a special perspective, focusing on its co-founder, Empress Piroska-Eirene, the daughter of the Hungarian king Ladislaus I. This particular vantage point enables its authors to explore not only the architecture, the monastic and medical functions of the complex, but also Hungarian-Byzantine relations, the cultural and religious history of early medieval Hungary, imperial representation, personal faith and dynastic holiness. Piroska's wedding with John Komnenos came to be perceived as a union of East and West. The life of the Empress, a "sainted ruler," and her memory in early Árpáadian Hungary and Komnenian Byzantium are discussed in the context of women and power, monastic foundations, architectural innovations, and spiritual models.

Selected Discourses of Shenoute the Great Dec 23 2021 Shenoute the Great (c.347-465) led one of the largest Christian monastic communities in late antique Egypt and was the greatest native writer of Coptic in history. For approximately

eight decades, Shenoute led a federation of three monasteries and emerged as a Christian leader. His public sermons attracted crowds of clergy, monks, and lay people; he advised military and government officials; he worked to ensure that his followers would be faithful to orthodox Christian teaching; and he vigorously and violently opposed paganism and the oppressive treatment of the poor by the rich. This volume presents in translation a selection of his sermons and other orations. These works grant us access to the theology, rhetoric, moral teachings, spirituality, and social agenda of a powerful Christian leader during a period of great religious and social change in the later Roman Empire.

Monastery Prisons Sep 19 2021 Little is known regarding prisons located inside Russian Orthodox Monasteries for the incarceration of religious dissenters and sectarians, political activists and criminals. This book focuses on the history of such a prison system and the lives and convictions of the inmates subject to incarceration by Imperial Russia and the Russian Orthodox Church. The period covered begins 1441, with the arrival of Isidore, the metropolitan of Moscow, to the Moscow Chudov (Miracles) Monastery for incarceration, and ends 1905, when the final inmates were released from the Suzdal Spasso-Evfimiev Monastery, coincident with the edict of religious toleration of Tsar Nicholas II. Likewise included are the

women incarcerated in convents over the same period. This is a part of history that is unknown to the non-Russian speaking world and which the author hopes to unveil. With 11 photographs. *Life Inside the Cloister* May 04 2020 Sacred architecture as reality and metaphor in secularised Western society Christian monasteries and convents, built throughout Europe for the best part of 1,500 years, are now at a crossroads. This study attempts to understand the sacred architecture of monasteries as a process of the tangible and symbolic organisation of space and time for religious communities. Despite the weight of seemingly immutable monastic tradition,

architecture has contributed to developing specific religious identities and played a fundamental part in the reformation of different forms of religious life according to the changing needs of society. The cloister is the focal point of this book because it is both architecture, a physically built reality, and a metaphor for the religious life that takes place within it. *Life Inside the Cloister* also addresses the afterlife and heritagisation of monastic architecture in secularised Western society.
