Recognizing the widespread struggles facing pastors today, Tripp exposes and exhorts the cultures that train and support our church leaders so that they can lead well and our churches can be healthy. Now in paperback. In all of those years, he's seen too many young pastors walk away from ministry too early, and he hopes to help change that. He believes that, "if we can prep young up-and-coming ministers earlier and give them a true view of what ministry entails, then maybe we can help these young ministers stay longer in their roles. And if they do, it only benefits these students!" Most seminary graduates will begin their ministries with plenty of important head knowledge to share--but with a deficit of some of the most practical aspects of doing ministry, such as - which ministry role most suits them - how to start out strong at a new church - persevering during difficult seasons of ministry - leading meetings and delegating tasks - safeguarding their family - fighting discouragement, pastor envy, and a lack of contentment - navigating special ministry needs, such as hospitals, weddings, and funerals - and much more Through his hard-won wisdom, Jason Helopoulos comes alongside new pastors as a trusted friend and mentor, ready to guide them through their first years of ministry with intelligence and compassion. Serving faithfully in one's current congregation while simultaneously going through the secretive process of looking for a new position is one of the most difficult dilemmas of any pastor's life. How should one respond to 'getting the itch'? Where is the line between keeping confidentiality and presenting one's credentials in the most favourable and realistic light? What are the consequences of being an active candidate? Antal's companionable approach stimulates theological and spiritual reflection on matters of the most practical consequence, promotes self-understanding, and enhances ministry. Congregations today face both old and often new, unprecedented challenges--spiritual, moral, technological, and economic--for which there are no easy solutions. Facing such challenges calls for pastors able to lead with authority in ways at the same time faithful to the gospel and appropriate to the congregation's setting and the issues at hand. Yet many pastors are unsure of their authority, often experiencing conflict as they attempt to lead. Others have abused their authority and brought mistrust and suspicion to ordained ministry, making it difficult for other clergy to lead. In this book, a new and revised edition of his earlier, highly regarded work on pastoral authority and leadership, Jackson Carroll brings together theological and sociological perspectives to provide an interpretation of pastoral authority as

reflective leadership, a style of leadership that involves vision and discernment, and that is appropriate for the many roles in which pastors engage--preaching, worship leadership, teaching, counseling, and shaping the congregation's corporate life. In this new edition Carroll draws on what he has learned from many conversations with pastors and lay leaders since the book's initial publication as well as insights from others. He also introduces helpful new case material from practicing pastors and incorporates the perspectives of several recent leadership theorists and practitioners to deepen and enhance the discussion of pastoral authority as reflective leadership. Harbaugh captures your interest with dramatic stories of the inner lives of working pastors, weaving these stories into patterns of meaning from his own reflection and research. An excellent study guide for the individual pastor, the pastor's support group, or the seminary class that really wants to come to grips with the dilemmas of being a person who is also a pastor. This book aims at contributing to the scientific and academic discourse as regards to the 'what' and 'why' of youth ministry. Too often, youth ministry has been approached from a mainly practical point of view, almost asking how we keep young people off the streets. Its methodology has often not included the theological and theoretical presuppositions that lie behind this ministry. Previous scientific reflection has been determined by a one-dimensional and almost exclusive point of view. In comparison with existing literature, this book does not focus so much on the 'how' of youth ministry. It innovates a different approach. The book challenges the existing exclusive approach and develops an inclusive, congregational and missional understanding of and approach to youth ministry. From a particular perspective on the understanding the main objectives of Practical Theology, the author endorses the so-called movement of 'what is supposed to be going on'. He adds the outcome of an empirical round table discussion with some 16 leaders in this field on the descriptive and interpretive movements within the subject field: what is going on and why is it going on? The book will form the standard for any new research with regard to youth ministry. The book's contribution lies on the level of sound theological reasoning and argumentation (supported by many scholars) for an inclusive congregational understanding of ministry as an integral part of every congregation being missional in being and doing. Youth, children, adolescents and emerging adults, are just as integral a part of every congregation within which they live and serve. Papua New Guinea is experiencing changes that grow in significance and accelerate in pace. Although the majority of its population are still subsistence farmers, the postmodern world is fast making an impact. That means that, at the same time, they are strongly influenced by firmly ingrained tradition where animism is binding and a pervasive element as well as Western media with its consumerism and worldview. The most impacted are youth who are caught between the traditional and postmodern culture. In a country that is Christian by constitution, pastors are looked upon with high esteem. They need to find a way to bridge the gap, to make sense of the world youth are living in, and find a meaningful way forward. Although this book is aimed at pastors and youth workers in PNG, other sectors can benefit from the research--politicians, educators, health workers, clergy--especially if they are coming from a different culture, be that from PNG or another country. All those who enter the pastoral ministry desire to succeed. Yet they all find, surprisingly, that a number of key issues come up for consideration. Most pastors find that most of these issues appear during the first ten years of pastoring. During those years the pattern is determined, which will point to the success or to the development of habits that will reduce effectiveness and produce stumbling. In this warm, personal, from-the-heart book, a long-time pastor not only identifies twenty-one potentially harmful issues if not handled well, but he also provides counsel and direction in how they should be faced and handled. Pastors in small rural churches where ministry seems simple, and those in suburban churches which are a bee-hive of activity, as well as those in city parishes with new

challenges every day, will all find fresh insight here. Ministries will be enhanced by learning from these issues that the author identifies. All will be grateful for the warnings issued and the advice given. If you are in ministry of any kind, this book can help you. The book is basically the compilation of experience gained from ministering to some one thousand ministerial couples from some twenty different denominations and six countries during over one hundred Stress In The Ministry conferences. These conferences were week-long conferences designed to help ministers avoid and/or deal with stress and prevent burnout. The book discusses the causes and cures of stress in ministry. Stress is good for you, but distress is bad and can be fatal not only for the minister but also for the ministry. With 30 years of experience behind him, David Horner knows the pitfalls of a life in ministry. In *7 Challenges Pastors Face*, Horner shows you how to - balance the demands of your calling - sharpen your vision - grow a team - cultivate humility Developing a well-balanced approach to responsibilities and passions will equip you to thrive in the face of the many challenges of ministry. This book can show you the way. "Dr. Brown's portrait of the dynamics of the problem is insightful and challenging." -Andrew Greeley, from the Foreword

When Ministry Is Messy: Practical Solutions to Difficult Problems addresses the three major causes of conflict within parish ministry-natural personality differences, emotional illness and sin. With the help of Scripture, namely Matthew 23, and modern psychology, Dr. Brown offers solutions to conflicts so that pastoral ministers can free themselves from fear and anxiety in their daily work and bring peace to church ministries. Drawing from his extensive background in both psychology and ministry, Dr. Brown provides effective solutions that are both practical and spiritual. Pastoral ministry is more challenging than ever with unique, complicated burdens and expectations some have not experienced in previous generations. Because of this, the number of pastors who start with a great zeal for the work, quickly crash and burn and are left with a battered faith and family. This book seeks to identify those unique challenges, diagnose the problem, propose a biblical solution, and then guide the pastor and his family to embrace these challenges while shepherding the family through them. In this era of "faith-based initiatives," congregations increasingly find themselves in the business of establishing and supporting community ministries-daycare for infants and toddlers, respite care for elders, and programs for housing rehab and home repair, tutoring, and social justice advocacy. In this volume, Carl S. Dudley revises and updates his earlier book, *Basic Steps toward Community Ministry*, which Loren Mead called "the most valuable book on parish ministry I've seen in a decade." A trustworthy and respected guide for pastors and church leadership in the post-quarantine world, providing hope and vision for the future of your congregation. From thousands of surveys of church leaders and in-person consultations, Thom Rainer and his Church Answers team have gathered the essential wisdom you will need to face the challenges and opportunities that the quarantine crisis creates for the local church, including: New and better ways to lead the gathered church A wide-open door for growing the digital church A moment to rethink the facilities New strategies for church growth . . . and much more! This book is, in effect, your personal church consultant, helping you plan and prepare for the future. In the midst of heartbreak, tragedy, and struggle due to Covid-19, here's hope, wisdom, encouragement and vision. This book is valuable for those looking for local church and pastor resources to enhance church leadership, grow your church, and serve digital and online church communities in the post-quarantine world. As a former pastor and founder of Church Answers, Thom S. Rainer is intimately familiar with the ever-present demands that pastors face. He has spent a lifetime committed to the growth and health of the local church. *A Guide to Ministry Self-Care* offers a comprehensive and up-to-date overview of both the causes of stress and strategies for effective self-care. Written for both new and long-time ministers, the book addresses a wide range of life situations and explores many forms of self-care, from physical and

financial to relational and spiritual. The role of women in the church is an ongoing concern among Christians, both in the West and in the developing world. The discussion usually falls into the broad views of complementary and egalitarian positions. The former view considers the role of women to be restricted at least in the one area of teaching authoritatively a whole congregation as an elder or pastor. The egalitarian view places no restrictions on the role of women anywhere, whether in or out of the church. In this book the author challenges both views. He proposes a paradigm representing a biblical world view that acknowledges the influence of biblical authority, culture, and the increasing actualizing of equality in Christ that the Gospel proclaims. He cites the observance of the Sabbath that was once universally authoritative--based in Creation--but no longer is as a parallel for developing an understanding of the role of women in the church. Where does his proposal lead? His conclusion is surprising. Examining his thirty years of pastoral ministry, Horner mines seven key challenges that pastors must face well in order to restore and maintain a healthy balance. *New Challenges for ASEAN* examines some of the most important policy issues confronting Association of Southeast Asian Nations (ASEAN) governments. These include the degradation of the maritime and urban environments, new strains on inter-ethnic relations, domestic and international pressures to ensure the protection of human rights, growing barriers to trade with the outside world, and security concerns arising from a changing regional balance of power. The responses of the ASEAN governments to these challenges, at domestic, regional and international levels, are critically examined by a group of experts with longstanding interest in Southeast Asian affairs. Mike Ratliff identifies the Sacred Challenge that is and has been occurring in Sunday school ministries. Ratliff strives to help Sunday schools move into new areas of ministry and mission by offering examples, stories, and models of changes, which he has gathered through out his ministry. The book remains true to the tradition of Sunday school, respecting its past while also focusing on ways to cast that tradition in a new era. Ratliff is both gentle and pastoral in his approach to this extremely sensitivity topic, yet he challenges Christian Educators to look beyond the ordinary to extraordinary. In *Ministry in Three Dimensions*, Steven Croft outlines the challenges - greater geographical and social mobility, and older, smaller congregations, for example - that today's society presents to the churches, explaining that models of mission and ministry which were once perfectly adequate no longer work in this new situation. The author identifies some of the potentially harmful ways in which attempts have been made to meet these new challenges, suggesting the use of secular management models as one such false trail. Far better and more fruitful is to recover a biblically-based understanding of ministry. In scripture and through Church history he explores the dimensions of ministry indicated by three different Greek words found in the New Testament: diakonia, presbyteros and episcopo, uncovering the rich tradition surrounding what it means to be an ordained leader in the Church. Steven Croft draws out insights from which a new, relevant understanding of ordained ministry can be built across the denominations, and explores how to put these insights into practice, suggesting ways in which each minister can balance the three dimensions in their own setting. Eddie Gibbs candidly analyzes new church models while proposing nine areas in which the church will need to transform to be biblically true to its message and mission. With sympathetic counsel, Al Martin probes into the life of the minister, addressing symptoms, causes and cures to help ministers avoid debilitating downfall. "I'm so thankful that Pastor Martin's years of pastoral experience and wisdom are now being made available to the church in this wonderful book. This important book is needed today. The challenges that Christian churches face have changed immensely in the last quarter-century. One of the central issues facing the churches everywhere in the world is their missionary presence in their nations and societies. The authors of this volume are among the world's leading missiological thinkers and represent nearly every major Christian tradition in Europe, Africa,

North America and Asia. In this new century, the Christian church faces new situations that include, for example, the fall of communism; the globalization of culture; cultural and religious minorities and multiple religious majorities in nearly every country; ethnic and interreligious tensions; relativism and individualism in Western culture; the rise of a global impact of a postmodern world view; poverty in poor countries and in urban areas in wealthy countries; and the decline of Western cultural authority and, with notable exceptions, of religious authority generally. This book speaks of ways in which Christian churches are seeking to respond to these challenges. The purpose of this book is to describe some of the main challenges facing the churches in mission today, particularly with reference to inter-religious conversations all over the world. The title of this volume has been derived from the theme of the 24th General Assembly of the World Alliance of Reformed Churches (WARC) at Accra in August, 2004 whose theme is, "That All May Have Life in Fullness." Such Christian witness is more than humanness, because it arises from the fullness of God's grace: forgiveness, reconciliation, and hope that God's will may be done on earth as it is in heaven. Christian presence in a desperately needy world will make the fullness of God's presence known. Such fullness of life permeates the heart, mind and action of Christians. The editors and authors of this volume hope that it will challenge the reader to reflect upon the missionary presence of the churches and their communication of the Gospel in a secularized, religiously plural world filled with struggles, violence and rumors of war. Fullness of life points to the Kingdom of God that is here already and at the same time not yet here. This constitutes Christian expectation and hope. This book is must reading for anyone interested in seeing the Christian Church respond in new and relevant ways to the new situations facing our world in a new century.

Interim's Gift to a Congregation Every church experiences a time when the previous pastor leaves and the congregation confronts the challenge of finding a new pastor for their church. The time of transition that begins when the former pastor is no longer present and the new pastor has not yet arrived is often a time of uncertainty. Regardless of whether the experience with the previous pastor was positive or negative, congregations feel like they are treading water waiting for their next spiritual leader. Seeking a new pastor can both be a time of anxiety and hope. In recent times, many congregations have engaged the services of an interim pastor to both provide them guidance and some continuity while they search. This book offers a creative possibility for how the congregation can make use of this transition time to encourage their next chapter of ministry to be strong and healthy. The interim pastor is in a better position than almost anyone else to guide them in exploring that possibility. The ministry is a stressful calling that challenges a pastor's health—physical, emotional, financial, spiritual, family, and vocational— and, ironically, the better and more compassionate a pastor is, the bigger the challenge. Because an interim pastor is not advocating for him or herself, s/he is in a better position than anyone to help the congregation both understand and be supportive of good ministry. This book is designed to assist an interim in leaving the congregation with an intentional plan for a healthy partnership with their new pastor. It offers specific steps that an interim can take to educate the congregation about the stresses and challenge of ministry. The book then provides a design to enable the leadership to plan for a healthier approach to working with the new pastor. This is one of three volumes that are part of the series supporting the thesis that *Healthy Clergy Make Healthy Congregations [HCMHC]*. Each volume is designed to support clergy in a way that nurtures the spiritual health of the whole congregation. They are offered in the firm belief that God has called people together in congregations and called individuals to the ordained ministry in those congregations. All three volumes are available on Amazon.com. Those who care about the church are invited to go to the author's Web site www.smccutchan.com to view these and other resources designed to support the church.

It is indisputable that there are different cultures and what we term as "races" of people in our country and abroad. It is undeniable that different churches have various focuses or ministry emphases. This book poses and addresses the question as to whether there are different challenges that are faced by African American pastors. *Unique Challenges of African American Pastors* seeks to answer those questions and to highlight such challenges. There will be an in-depth view of those who are particularly in the South contrasted to pastors in different settings. The book begins with the history of how the African American church began in the South and follows its development, pausing along the way to examine key issues that still impact the African American church and its pastor in our modern times. The book also includes references, survey information, interviews, and other relevant resources and research gathered by Dr. Terry L. Weems in his pursuit to determine the variance between those pastoring white congregations in comparison to African American congregations. There are recommendations given as to how an African American pastor of a small church can minister effectively and efficiently in respect to the unique challenges he or she may encounter. This vital revised and expanded update to *How to Thrive in Associate Staff Ministry* (Alban, 2000) provides guidance to the growing population of staff members employed by churches. Churches are expanding their staffs, but the turnover rate remains high, often due to stress, isolation, and conflict on the job. Lawson and Boersma address what it takes to thrive personally, professionally, and relationally within associate staff ministry. Based on updated research and interviews with over 600 veteran associate staff members from many different denominations, Lawson and Boersma describe the priorities, attitudes, and practices that can help associate staff members thrive in their ministry roles. They present, explain, and illustrate a four-part "Model for Thriving in Associate Staff Ministry," a concrete framework that readers can use to help achieve satisfaction and balance in their own lives. In addition to addressing those in associate staff roles, the book also includes chapters to help supervising pastors and church boards support their associate staff members. Each chapter includes questions for personal reflection or discussion with others to help readers engage with the material and determine what steps they might take to improve their own experience in associate staff ministry. This book is a useful resource for any who are looking for a companion as they explore how it is the Spirit invites them into deeper reflection about faithfulness, witness, and service. Unpacking and interpreting an individual's call at the outset is merely the first step in what becomes an iterative spiral for a life that intends to remain true and aligned with the impulses of the Spirit. This book works its way through various elements related

to the process of call and discernment as they relate to seekers' efforts to achieve clarity and focus as faith and life are integrated in meaningful ways. This is a practical, conversational book that embraces the idea that call is a natural and inevitable part of a faith perspective that views ministry as universal. Timed to be launched at 2009 General Convention, Juan Oliver definitive look at the history and potential future of Latino ministry in the Episcopal Church comes at an opportune time. With Latino ministries growing around the country in all traditions, and with increasing resource and programmatic offerings being allocated to serve those communities, this highly descriptive handbook profiles the culture, faith, and importance of this emerging minority. Within the book chapters, Oliver surveys topical areas, such as: Who/What is a Latino? Latino Biblical Interpretation Worship in a Latino congregation The spiritual lives of Latinos Latino authority and governance Latino administration and stewardship The Latino priest: Factotum or Specialist? The Latino deacon The Latino bishop Non-Latinos in Latino ministry Contents include: Foreword, by Lovett H. Weems, Jr. Preface Introduction CHAPTER 1. Veterans' Advice to "Wannabes" and "Newbies" Introduction to Appendixes A and B - For Those Who Care about Associate Staff APPENDIX A. The Valued Supervisor APPENDIX B. The Supportive Church Board APPENDIX C. The "Thriving in Associate Staff Ministry" Study APPENDIX D. Professional Organizations for Associate Staff Members Further Reading for Associate Staff Members After traveling the globe and speaking to thousands of churches worldwide, Paul David Tripp has discovered a serious problem within pastoral culture. He is not only concerned about the spiritual life of the pastor, but also with the very community of people that trains him, calls him, relates to him, and restores him if necessary. Dangerous Calling reveals the truth that the culture surrounding our pastors is spiritually unhealthy—an environment that actively undermines the wellbeing and efficacy of our church leaders and thus the entire church body. Here is a book that both diagnoses and offers cures for issues that impact every member and church leader, and gives solid strategies for fighting the all-important war that rages in our churches today. Future pastors and servant-leaders are taught the much-needed "tools of the trade"—the principles of hermeneutics, how to exegete a passage, put a sermon together, conduct a wedding, manage a funeral, oversee administrative meetings, and much more. On the Wall with Sword and Trowel is a reminder that no amount of professional training, educational instruction, and/or personal counsel could adequately ready an individual for the crucible of ministry—the confusion, pressures, heartbreak, disappointments, discouragements, and more. There is plenty more to learn about genuine faith, dealing with doubts and fears, the destructive nature of sin, the healing/transforming power of grace, the overwhelming demands of ministry, the necessity for authenticity, the sanctity of marriage and family, the joy of serving, and the weight of duty and responsibility—all issues every pastor/servant will face and must face. This volume provides all who minister to young people with an effective blueprint for building a truly meaningful ministry "Contributors share their wisdom about the practical side of ministry: work/life balance, governing a church, managing people, and other challenges pastors encounter. Pastors new to parish ministry will benefit from learning from those who have gone before them, who have served in parishes of all shapes and sizes. Experienced pastors will learn from their peers, giving them fresh tips and tools for parish ministry"— Without a sense of personal satisfaction and fulfillment in life, it is difficult to be effective in ministry over the long haul. That is why it is so important that those stresses in

life which lead to burnout and the abandonment of one's calling to the service of God and one's neighbor be addressed decisively and at a very early stage. In her very timely book, Dr. Helen Doohan offers a problem-solution approach to personal fulfillment and effectiveness in ministry, solidly basing her suggestions on scripture, theology, and the lived experiences of professional ministers. In this unique contribution to other studies in this area, Dr. Doohan emphasizes the components of a contemporary spirituality, the example of Jesus, and the leadership style of Paul to convey her hope-filled message to the minister of our day and age. This approach gives a solid foundation for an integrated approach to life and gives promise to an increased effectiveness in ministry. Focusing on pastoral leadership within local churches or groups of churches, Derek Tidball provides a comprehensive survey of the variety of ministry models and patterns found in the New Testament with applications for today's ministry. This book offers thought-provoking perspectives on putting liberal religious values into action to address real problems in local communities and in the world. The story of these innovative ministries is intended to inspire change in thinking and practice. This collection of essays invites readers to consider how liberal religion can address social issues through innovative community ministries beyond the walls of congregations. It provides historical and theological perspectives on community ministry and offers engaging real-life stories of community ministries in action. The authors have a long history of working in community ministry and they bring their experience, their inspiration, and their concerns, shared by them and their ministerial colleagues in the field to their accounts of this important story. There is no other book that tells the story of the challenges and potential of Unitarian Universalist Community Ministry for today and the future.
