It also serves as a useful reference for practicing professionals. Build a strong foundation of medical terminology, step by step Medical Terminology: A Living Language uses a carefully constructed learning system to help readers gain a successful grasp of medical language within a real-world context. Its step-by-step approach introduces the anatomy and physiology of body systems and their corresponding medical terms, as well as the rules of using word parts to form medical terms. New exercises and tips give readers the hands-on practice they need to achieve

mastery. Rather than simply memorizing terms, students will gain the understanding to work with all terminology, regardless of its etymology or origins, so they can interpret unfamiliar terms they will encounter in the future. <sup>3</sup> Also available with MyMedicalTerminologyLab(tm) This title is also available with MyMedicalTerminologyLab-an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. No matter their learning style, students will build a solid foundation of medical language through MyMedicalTerminologyLab's interactive games, Dynamic Study Modules, and narrated lectures. NOTE: You are purchasing a standalone product; MyMedicalTerminologyLab does not come packaged with this content. MyMedicalTerminologyLab should only be purchased when required by an instructor. Check with the seller prior to purchase. -- Kirk Trigsted revolutionized

the way this course is taught when he created College Algebra, a completely clickable eText that was written from the ground up within MyMathLab. Recognizing that today's students start with the homework instead of reading the text, Trigsted created an online learning environment that is a seamless mix of exposition, videos, interactive animations, tutorials, and assessment. This approach leverages the power of MyMathLab and leads students to interact with course materials in a way that is proving to be more effective. With Precalculus: A Right Triangle Approach, Trigsted continues to innovate with a revised design that improves navigation and usability, expanded videos, and increased animation coverage. All multimedia elements, exercises, feedback, and content are written by the author himself so that the students have a consistent voice throughout. For Health and Fitness courses. Pearson eText offers an affordable, simple-to-use, mobile reading experience that lets instructors and students extend learning beyond class time. Students can study, highlight, and take notes in their Pearson eText on Android and iPhone mobile phones and tablets -- even when they are offline. Educators can also add their own notes and highlights directly in the eTextbook so that students see what is important for their particular course. Provide your students with interactive tools to succeed in fitness and wellness Pearson eText for Total Fitness and Wellness gives students a solid foundation in fitness and wellness, while providing them with the tools they need to make healthy behavioral changes and lifestyle choices. The vibrant design makes the book more approachable through modern chapter-opening photos, graphs, and detailed exercise photos. The 7th Edition provides a clear learning path and a thoroughly revised guide to creating a comprehensive fitness and wellness plan, ensuring students and instructors have the tools they need to succeed. In addition to your purchase, you will need a course invite link, provided by your instructor, to register for and use Pearson eText. In *Thinking Mathematically*, Sixth Edition, Bob Blitzer's distinctive and relatable voice motivates students from diverse backgrounds and majors, engaging them in the math through compelling, real-world applications. Understanding that most students in a liberal arts math course are not math majors, and are unlikely to take another math class, Blitzer has provided tools in every chapter to help them master the material with confidence, while also showing them the beauty and fun of math. The variety of topics and flexibility of sequence make this text appropriate for a one- or two-term course in liberal arts mathematics or general education mathematics. ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. completing your purchase. For introductory courses in Management Information Systems. This ISBN is for the MyLab MIS access card. Pearson eText is included. Turn concepts into practice Experiencing MIS illustrates how organizations use information systems to solve business problems every day. Technology is fundamentally changing the way organizations operate, enabling them to be more productive, innovative, and adaptable. Graduates need to know how to apply emerging technologies to better achieve their organizations' strategies. This modular text uses illustrative cases, exercises, projects, and other aids to connect concepts to everyday life. The 9th Edition takes into account recent major technological advances, including self-driving cars, smart devices, virtual reality, automated workforces, and data breaches. These developments are reflected in new case studies, new career and ethics guides, updated statistics, and refreshed chapter content. Personalize learning with MyLab MIS By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. And, with Decision-Making Mini Simulations and Auto-Graded Excel and Access Projects, students learn how MIS concepts will help them succeed in their future careers. 013650048X / 9780136500483 MyLab MIS with Pearson eText -- Standalone Access Card -- for Experiencing MIS, 9/e Package consists of: 0136500498 / 9780136500490 MyLab MIS -- Pearson eText Upgrade -- for Experiencing MIS 0136510140 / 9780136510147 Pearson eText Experiencing MIS -- Access Card NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For combined courses in Developmental Reading and Writing. This package includes MySkillsLab®. A focus on sentence- and paragraph-level reading and writing skills In Harmony, Second Edition is the first text in a two-part integrated reading and writing series. This volume focuses on sentence to paragraph reading and writing skills, while In Concert moves on to explore paragraph and essay level reading and writing. This series aims to show students how reading and writing unite to become a single process of understanding and expressing ideas. Emphasizing the harmonious nature of the reading and writing processes, it highlights critical thinking and reinforces its relationship to these processes. Student and professional readings are presented at the start of each chapter and used as the basis for instruction, illustration, and practice. Readings are presented as integrated instructional material, rather than as models or additional practice, allowing students to improve on their own reading and writing skills through a single source. Thematic-based chapters help build continuity, elicit student interest and help students draw on their own prior knowledge. McWhorter's streamlined presentation and flexible approach work in traditional as well as compressed courses. Personalize Learning with MySkillsLab ® MySkillsLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. 0134023862 / 9780134023861 In Harmony: Reading and Writing Plus MySkillsLab with Pearson eText - Access Card Package Package consists of: 0133944913 / 9780133944914 In Harmony: Reading and Writing, 2/e 0133995151 / 9780133995152 MySkillsLab with Pearson eText - Inside

Pearson eText is included. An authoritative, engaging introduction to MIS Essentials of MIS is an in-depth look at how today's businesses use information technologies and systems to achieve their corporate objectives. Current real-world business cases illustrate how companies have identified, and ultimately solved, key business challenges using information systems and technologies. Through the use of Essentials of MIS , students will be able to participate in, and even lead, management discussions of information systems for a firm. The 14th Edition consists of 12 chapters with hands-on projects that cover the most essential topics in MIS, all updated with new figures, tables, and cases. In addition to the core text, this edition includes a Video Case Package consisting of 28 video case studies and 10 instructional videos to illustrate business uses of information systems, explain new technologies, and explore concepts. The knowledge and information in this book will be most valuable to students -- regardless of major -- throughout their business careers. Personalize learning with MyLab MIS By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. And, with Decision-Making Mini Simulations and Auto-Graded Excel and Access Projects, students learn how MIS concepts will help them succeed in their future careers. 0136500838 / 9780136500834 MyLab MIS with Pearson eText -- Access Card -- for Essentials of MIS Package consists of: 0136500900 / 9780136500902 MyLab MIS without Pearson eText -- Instant Access -- for Essentials of MIS 0136500951 / 9780136500957 MyLab MIS -- Pearson eText Upgrade -- for Essentials of MIS ALERT: Before you purchase, check

Check with the seller before completing your purchase. For courses in Organic Chemistry (2-Semester) This package includes MasteringChemistry(tm). Paula Bruice's presentation in Organic Chemistry, Eighth Edition provides mixed-science majors with the conceptual foundations, chemical logic, and problem-solving skills they need to reason their way to solutions for diverse problems in synthetic organic chemistry, biochemistry, and medicine. The Eighth Edition builds a strong framework for thinking about organic chemistry by unifying principles

of reactivity that students will apply throughout the course, discouraging memorization. With more applications than any other textbook, Dr. Bruice consistently relates structure and reactivity to what occurs in our own cells and reinforces the fundamental reason for all chemical reactions-- electrophiles react with nucleophiles. New streamlined coverage of substitution and elimination, updated problem-solving strategies, synthesis skill-building applications and tutorials guide students throughout fundamental and complex content in both the first and second semesters of the course. Personalize learning with MasteringChemistry. MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging readers before, during, and after class with powerful content. Instructors ensure readers arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics(tm). Readers can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess readers understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever-before, during, and after class. 0134048148/9780134048147 Organic Chemistry Plus MasteringChemistry with eText -- Access Card Package, 8/e Package consists of: 0134074661 / 9780134074665 MasteringChemistry with Pearson eText -- ValuePack Access Card -- for Organic Chemistry, 8/e 013404228X / 9780134042282 Organic Chemistry, 8/e ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Beecher, Penna, and Bittinger's Algebra and Trigonometry is known for enabling students to "see the math" through its focus on visualization and early introduction to functions. With the Fifth Edition, the authors continue to innovate by creating and positioning review material to provide a more effective tool for teachers and students. 25 Just-In-Time review topics are placed throughout the text and MyMathLab to help students right when they need it most. This, along with the existing Mid-chapter Mixed Review exercises, Study Guide summaries, and the new MyMathLab with Integrated Review course, students have an unparalleled amount of review resources to help them be successful in the course. Personalize learning with MyMathLab MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps

them absorb course material and understand difficult concepts. With this edition, the authors focused on developing MyMathLab features that help better prepare students and get them thinking more visually and conceptually. DIGITAL UPDATE available for Fall 2020 classes The Pearson eText and Mastering have been updated to provide new author-written content that actively engages students every step of the way in becoming expert problem solvers. For courses in two-semester general

chemistry. An atoms-first approach that actively engages students in learning chemistry and becoming expert problem solvers With *Chemistry: Structure and Properties*, author Nivaldo Tro incorporates his engaging and precise narrative to tell the story of chemistry with an atoms-first approach. This approach emphasizes that matter is particulate -- composed of molecules -- and the structure of those particles determines the properties of matter. The relationship of structure affecting properties is the thread that weaves all of chemistry together, and this theme is applied to all aspects of the text, from content and organization to art and pedagogy. The book presents chemistry as a logical, cohesive story from the microscopic to the macroscopic, so students can fully grasp the theories and framework behind the chemical facts. Personalize learning with Modified Mastering Chemistry By combining trusted author content with digital tools and a flexible platform, Mastering personalizes the learning experience and improves results for each student. Mastering Chemistry provides an extension of learning, allowing students a platform to practice, learn, and apply knowledge outside of the classroom. You are purchasing an access card only. The authors designed Making Reading Relevant to be flexible: it may be used as the primary textbook for the course or as a reference tool to supplement the use of outside reading materials (primary sources). Overall, the authors stress the application of reading strategies (using primary reading sources as the basis of the content) so students learn to become better, more efficient readers-not by just reading about how to read, but by applying skills to reading real sources. This edition of Making Reading Relevant is supported by an enhanced MyReadingLab course, which offers text-specific exercises within the Learning Path, all of which feed into the MyReadingLab Gradebook. 0321912993 / 9780321912992 Making Reading Relevant: The Art of Connecting plus NEW MyReadingLab with eText -- Access Card Package 0321866134 / 9780321866134 NEW MyReading Lab with Pearson eText --Standalone Access Code -- for Making Reading Relevant: The Art of Connecting 0321888669 / 9780321888662 Making Reading Relevant: The Art of Connecting 3/e ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Computer Literacy for IC3 was written to align with a certification called "Internet and Computing Core Certification (IC3)". This certification is for users who want to demonstrate critical computer and Internet skills valued in today's academic and professional environments. The Computer Literacy for IC3 text is written to meet the certification standards and provide readers with a broad understanding of the key components of computer literacy in order to prepare for the exam. This certification has 3 units: \*

Unit 1: Computing Fundamentals (computer concepts) \* Unit 2: Using Productivity Software \* Unit 3: Living Online (the Internet) Each of these units is available as a separate Computer Literacy for IC3 text. This text contains: Unit 1: Computing Fundamentals and covers basic computer concepts including computer hardware, computer software, and using an operating system. The second edition of Computer Literacy for IC3 has been revised to keep up with the IC3 program's evolution, which reflects the recent changes in computers and technology. Instead of publishing one large, comprehensive text, the three units are now available as separate, smaller texts. NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.
