the outside but inside there are 3 boxes for your login information  
on each page. Section on creating secure passwords There are risks  
to however a password is stored. These can be from online thieves  
or opportunist burglars. At the front of the book is a brief section for

creating a secure password that can be written down but can't be used by someone who has the book (unless you tell them the extra password information needed). Notes and other pages to add other useful information like software licenses There is a section at the back to add information that won't fit in the usual password boxes. There are notes pages but also places to add home network settings and license information.
