In this time of heightened spiritual awareness, many have already felt and many more continue to seek the daily, affirming touch of a guardian angel. This exquisitely illustrated set of 52 cards celebrates the loving companionship of these celestial guides and harnesses their special wisdom. Each card contains a positive message that opens up communication with our guardian angel, helping us to focus on daily goals and overcome all obstacles in our path. "Lessons Jim and Jamie Dutcher learned from six years of living in the Idaho wilderness with gray wolves"-- This series offers complete coverage of Standard Grade targets, in a carefully considered order and is written by authors of New Maths in Action S1 and S2 to ensure progression from 5-14. There are three Teacher Resource Packs available for each year providing complete support for each of the Student Books. Catálogo de la colección de cartas legadas a los miembros del consejo de administración del Museo Británico por Lady Charlotte Schreiber This gorgeous book and pack of 52 messages channelled by healer Vanessa Lampert can be used for daily affirmations and predicting the future. The messages on the cards fall into four suits: Wisdom (purple), Love (pink), Career and Creativity (yellow/orange), and Healing (green/blue), so you can interpret them in these four key areas of your life. The accompanying book explains how working with angels harnesses your true potential, helping you improve your life and move forward. It shows how to lay out the cards to use them for prediction, meditation, dowsing, dreaming, and general affirmations. Also included are detailed explanations of each Angel Message to complement the inspiring color illustrations that appear on every message card. * Angels are the new vampires--and angel cards are now more popular than ever. * In print since 2001, Angel Messages has sold more than 85,000 copies worldwide. * This box combines messages, or affirmations, with an added-value oracle that makes the cards more meaningful. From the villainous beast of "Little Red Riding Hood" and "The Three Little Pigs," to the nurturing wolves of Romulus and Remus and Rudyard Kipling's The Jungle Book, the wolf has long been a part of the landscape of children's literature. Meanwhile, since the 1960s and the popularization of scientific research on these animals, children's books have begun to feature more nuanced views. In Picturing the Wolf in Children's Literature, Mitts-Smith analyzes visual images of the wolf in children's books published in Western Europe and North America from 1500 to the present. In particular, she considers how wolves are depicted in and across particular works, the values and attitudes that inform these depictions, and how the concept of the wolf has changed over time. What she discovers is that illustrations and photos in works for children impart social, cultural, and scientific information not only about wolves, but also about humans and human behavior. First encountered in childhood, picture books act

as a training ground where the young learn both how to decode the “symbolic” wolf across various contexts and how to make sense of “real” wolves. Mitts-Smith studies sources including myths, legends, fables, folk and fairy tales, fractured tales, fictional stories, and nonfiction, highlighting those instances in which images play a major role, including illustrated anthologies, chapbooks, picture books, and informational books. This book will be of interest to children’s literature scholars, as well as those interested in the figure of the wolf and how it has been informed over time.
