Written by a jazz teacher for jazz teachers, The Real Jazz Pedagogy Book is based on the premise that successful jazz teachers must be constantly working four main areas: 1) the wind instruments--including tone production, intonation, and section playing skills; 2) playing styles correctly--such as rhythmic and time feel approach, articulation approach, and phrasing; 3) the rhythm section--playing the instruments, time feel and concept, coordination of comping, harmonic voicings, drum fills and setups, stylistic differences; and 4) the soloists--developing improvisational skills (both right brain and left brain), jazz theory, the ballad soloist, and the vocal soloist. Ray Smith, who has taught and directed jazz ensembles, including the acclaimed Brigham Young University group, Synthesis, and given private lessons for over forty years, also discusses the details of running school programs. Smith's YouTube channel complements The Real Jazz Pedagogy Book. "Caught falling is the inside-out of Nancy Stark Smith's life through the kaleidoscope of the dance form contact improvisation. Now, the number one selling Jazz Improvisation book in the world has a whole new look! Introducing a new version of Jamey's world famous Volume 1: How to Play Jazz and Improvise, completely revised and specifically tailored for you by jazz pianist Luke Gillespie of the prestigious IU school of music. The musical examples have been rewritten, as well, in grand staff format and include suggested left-hand and two had voicing examples to be played with the CD tracks. The first play-a-long/demonstration CD includes special stereo separations, allowing the piano to be eliminated so that the student can play along with bassist Rufus Reid and drummer Jonathan Higgins. The second CD includes the same play-a-long tracks as the first CD, but at slower practice tempos. A complete package for the beginning jazz pianist! 106 pages, spiral bound for easy opening. This text presents all of the materials commonly used by the jazz musician in a logical order dictated both by complexity and need. The book is not intended to be either an arranging or improvisation text, but a pedagogical reference providing the information musicians need to pursue any activity they wish. There is an ever-increasing number of books on improvisation, ones that richly recount experiences in the heat of the creative moment, theorize on the essence of improvisation, and offer convincing arguments for improvisation's impact across a wide range of human activity. This book is nothing like that. In a provocative and at times moving experiment, Gary Peters takes a different approach, turning the philosophy of improvisation upside-down and inside-out. Guided by Kant, Hegel, Heidegger, and especially Deleuze—and exploring a range of artists from Hendrix to Borges—Peters illuminates new fundamentals about what, as an

experience, improvisation truly is. As he shows, improvisation isn't so much a genre, idiom, style, or technique—it's a predicament we are thrown into, one we find ourselves in. The predicament, he shows, is a complex entwinement of choice and decision. The performativity of choice during improvisation may happen "in the moment," but it is already determined by an a priori mode of decision. In this way, improvisation happens both within and around the actual moment, negotiating a simultaneous past, present, and future. Examining these and other often ignored dimensions of spontaneous creativity, Peters proposes a consistently challenging and rigorously argued new perspective on improvisation across an extraordinary range of disciplines. Recording artist and master improviser Walt Weiskopf presents the simple technique of "triad pairs" (using only two triads) to create long, exciting phrases for all improvisers. You will find yourself suddenly sounding much more hip and modern with this technique, and yet it is fairly easy to understand. Walt explains the technique and then gives plenty of material to work on to get this method "under your fingers." This is definitely a recommended book for intermediate or advanced players who are looking for something to help take them to the next level. Use intervallic techniques to expand and enhance your musical performance in whole new directions. (Berklee Guide). The problem is that the books were illegally produced and distributed without any copyrights or royalties paid to the master composers who created these musical canons. Hal Leonard is very proud to present the first legitimate and legal editions of these books ever produced. You won't even notice the difference...the covers look the same, the engravings look the same, the songlist is nearly identical, and the price remains fair even on a musician's salary! But every conscientious musician will appreciate that these books are now produced legally and ethically, benefitting the songwriters that we owe for some of the greatest music ever written! 400 songs, including: Air Mail Special * Birdland * Bye Bye Blackbird * Caravan * Doxy * Fly Me to the Moon (In Other Words) * Georgia * Girl Talk * In Walked Bud * I Remember You * I Thought About You * The Jody Grind * Just the Way You Are * Killer Joe * Little Sunflower * Mercy, Mercy, Mercy * Moanin' * The Nearness of You * Now's the Time * Old Devil Moon * Phase Dance * St. Thomas * Speak Low * Stardust * Tangerine * Tenor Madness * Watch What Happens * Whisper Not * Willow Weep for Me * Yardbird Suite * and

more. What Duke Ellington and Miles Davis teach us about leadership How do you cope when faced with complexity and constant change at work? Here's what the world's best leaders and teams do: they improvise. They invent novel responses and take calculated risks without a scripted plan or a safety net that guarantees specific outcomes. They negotiate with each other as they proceed, and they don't dwell on mistakes or stifle each other's ideas. In short, they say "yes to the mess" that is today's hurried, harried, yet enormously innovative and fertile world of work. This is exactly what great jazz musicians do. In this revelatory book, accomplished jazz pianist and management scholar Frank Barrett shows how this improvisational "jazz mind-set" and the skills that go along with it are essential for effective leadership today. With fascinating stories of the insights and innovations of jazz greats such as Miles Davis and Sonny Rollins, as well as probing accounts of the wisdom gleaned from his own experience as a jazz musician, Barrett introduces a new model for leading and collaborating in organizations. He describes how, like skilled jazz players, leaders need to master the art of unlearning, perform and experiment simultaneously, and take turns soloing and supporting each other. And with examples that range from manufacturing to the military to high-tech, he illustrates how organizations must take an inventive approach to crisis management, economic volatility, and all the rapidly evolving realities of our globally connected world. Leaders today need to be expert improvisers. Yes to the Mess vividly shows how the principles of jazz thinking and jazz performance can help anyone who leads teams or works with them to develop these critical skills, wherever they sit in the organization. Engaging and insightful, Yes to the Mess is a seminar on collaboration and complexity, against the soulful backdrop of jazz. Furnishes a comprehensive guide to improvisational techniques as used in stand-up comedy
