It promotes safety by showing how drugs and drug classes work, so you can understand why drugs are given, as well as the adverse effects and drug interactions that may occur. A thorough nursing process section with each drug class outlines the nurse's role when administering drugs. The updated Get Ready for the Next Generation NCLEX® Examination! feature offers case studies with Next Generation NCLEX-format questions to help you prepare for the new licensure examination. Ideal scope of content and readability for LPN/LVN programs includes basic, need-to-know pharmacology content. Safety Alert boxes highlight important nursing considerations for safe medication administration and monitoring. Lifespan Considerations boxes for children and older adults draw attention to information that would be especially important when giving a specific drug to patients of those age groups. A focus on understanding drug classes helps students understand the actions and uses of drug classes and provides a framework for safe, effective practice as new drugs are introduced to the market. Video clips on medication administration procedures provide students with a visual reference for safe medication administration. Key terms with phonetic pronunciations and text page references help improve students' terminology and language skills before they enter clinical practice. Essential content is highlighted throughout the text, as in all of Elsevier's LPN Threads textbooks, with features such as Top Tips for Safety, Memory Joggers, and Lifespan Considerations boxes. NEW! Get Ready for the Next Generation NCLEX® Examination! section includes key points, review questions, and case studies with Next Generation NCLEX-format questions to prepare students for the new licensure examination. NEW! Reorganized chapters break up lengthy content and more logically present pharmacological content by body system or major disorder. UPDATED! Coverage of newly approved and updated pharmaceutical treatments and drugs prepares students for practice. The Sixth Edition of this best-selling text includes updates to account for new legal, regulatory and policy developments. Pharmacy Practice and the Law, Sixth Edition provides background, history and discussion of the law so as to enable the student to not only learn the facts, but to help them understand, apply and critically evaluate the information. The issues covered in this text are discussed in non-legal, easy to understand language. Learn interactively and practice applying your knowledge of nursing pharmacology with this hands-on, visually engaging online course! Using self-study modules, interactive case studies, videos, animations, case studies, NCLEX® Examination-style quizzes, and interactive activities, this unit-by-unit companion to Lehne's Pharmacology for Nursing Care, 8th Edition helps you master key principles in nursing pharmacology and develop the critical thinking and clinical reasoning skills necessary for success in nursing practice. 21 self-study modules provide a thorough introduction to the

basic principles of pharmacology, drug calculations, and several major drug content areas using an interactive combination of media: text, animations, illustrations, integrated active learning exercises, and dynamic hyperlinks. 27 interactive case studies immerse you in true-to-life clinical scenarios and enable hands-on learning in the safety of a virtual setting, accompanied by rationales and remediation tools to help you improve your understanding of correct and incorrect choices. Self-module quizzes and case study quizzes ensure that you have mastered the content related to each module and case before moving on. 275 interactive learning activities test your knowledge of critical drug content in a fun, game-like format. UNIQUE! Roadside Assistance video clips hosted by renowned pharmacologist and speaker Alan P. Agins, PhD, infuse difficult content with humor and relevance for easier understanding. NCLEX® examination-style quizzes for every chapter (110 total) prepare you for the pharmacology questions you will encounter on the NCLEX exam and provide rationales and textbook page references to streamline remediation. Discussion questions facilitate virtual classroom conversations on current issues in pharmacology. 42 animations accompanied by voiceover narrations are integrated into the self-study modules to clarify concepts. 20 care planning activities challenge you to apply what you've learned to the planning of patient care. An online drug handbook is accessible with the self-study modules and case studies. An audio glossary helps you master definitions and pronunciations for more than 1,400 terms and drug names. NEW! Self-study module on the pharmacotherapy of atherogenic dyslipidemia (with corresponding quiz) focuses on the role of lipid-lowering drugs in the prevention and treatment of atherosclerotic heart disease. NEW! Two new interactive case studies (with corresponding quizzes) cover anticoagulants and drugs for anemia. NEW! Enhanced discussion questions develop your 'clinical imagination' by having you apply content from textbook readings and from directed literature searches to address true-to-life clinical situations like those you will encounter in practice. NEW! Updated Online Drug Handbook provides hands-on practice in consulting an up-to-date drug reference for clinical decision-making. NEW! Updated content coordinates with the 8th Edition of the Lehne text and includes information on the major new drugs, drug classes, and therapeutic uses. **BASIC PHARMACOLOGY AND DRUG CALCULATIONS IS DESIGNED TO ASSIST STUDENTS PREPARING FOR EXAM IN PHARMACOLOGY AS A SUBJECT OR IN ANY RELATED FIELDS SUCH AS PHARMACY TECHNICIANS, MEDICAL ASSISTANTS AND NURSING.
