Ode to Color Sep 16 2021 Internationally renowned textile designer Lori Weitzner presents a novel, layered perspective on the use and significance of color in design and culture in this spectacular treasury illustrated with 225 full-color images. *Ode to Color*, a stunning anthology by renowned and award-winning textile and wallcovering designer Lori Weitzner, principal of Lori Weitzner Design, Inc., offers an immersive, sensual, and engaging journey in the world of color as it applies to culture, design, mood, and memory. Each of the ten chapters in this richly illustrated volume presents a distinct color world through an intimate and often kaleidoscopic perspective, a compilation of the numerous—and often shifting—associations and emotions we assign to a color or group of colors. Each chapter combines diverse imagery—evocative fine art and photography, environmental interiors, details of Weitzner's gorgeous designs as well as her sketches and watercolors—with excerpts from literature and her own essays on a wide array of topics relating to the palette. The result is a fully sensory conveyance of each palette's particular power as well as a consideration of its tangible and intangible connections, from its place in religion, pop

culture, and commerce to the impact it has upon our decision making, our moods, and our tastes. While each chapter is unique in its approach to the ten worlds, with its mix of essays, prose and range of art, from a Technicolor Disney cartoon in *Out Loud* to David Bowie as Ziggy Stardust in *Silverlight*, each chapter includes: An introductory essay on a subject that characterizes the palette; A two-page photograph of an open drawer in Weitzner's studio that she has arranged with various fabrics, skeins, and objects that, together, comprise the palette; An evocative two-page word collage that presents both color names and the words commonly associated with the palette; Design pointers that provide in-depth insight to working with color and to decorating with each palette throughout the home, from wall treatments to accessories. Spectacular and imaginative, this experiential volume will captivate, inspire, and inform a broad audience, including interior designers and decorators, architects, graphic and fine artists, and anyone interested in art, design, fashion, pop culture, and spiritual discovery. Sumptuous, beautifully designed, and filled with wondrous imagery and compelling stories and facts, it makes an inspiring and unusual gift for almost any occasion.

What Color Is Your Dog? Jul 27 2022 This exciting dog training book is based on the original techniques of Hollywood dog trainer and Animal Planet's Good Dog U host, Joel Silverman. In **What Color Is Your Dog?** Silverman presents his groundbreaking color-coding technique,

developed over his thirty-year career training dogs for film, television, and commercials as well as working with killer whales in Sea World. By determining what color is an owner's dog, he is able to recognize and then enhance his dog's behavior, following the techniques outlined in the book. Silverman's advice for new puppy owners is to develop a strong, trusting relationship with their puppies in their first thirty days. He shuns traditional concepts of beginning the puppy's lessons as soon as the puppy comes home; instead he proposes that new owners spend time having fun, building trust, and enjoying the first month of the relationship. By increasing the dog's trust and "like" of his owner, the dog becomes more willing and eager to please and work with his owner/trainer. The main gist of the book comes from Silverman's color system in which five basic canine personalities or temperaments are assigned colors. With the descriptions of the five colors in hand; Blue (a fearful, rather skittish type dog), Green (a more or less bashful pooch), Yellow (the ideal, easygoing companion dog), Orange (excitable, but relatively under control dog), and Red (the hyper, high-strung dog that bounces off the walks as soon as bark); an owner is able to determine which color best matches his dog's temperament and approach the dog's lessons accordingly. The dog owner's goal then is to move his dog as close to the middle of the color spectrum (Yellow) as possible by using the training practices outlined in the book. Silverman devotes a full chapter to each of the five colors, explaining what makes each color type tick and how owners should best handle such a dog. The second half of the book focuses on training tools and techniques and teaching specific cues (sit/stay, stay, come, and no). There is also a chapter for the puppy owner giving helpful advice on special techniques to use for puppies.
