Ivy Style Sep 25 2019 "An in-depth study of Ivy style will be articulated this book, which will include essays by Patricia Mears, Dr. Peter McNeil, Dr. Christopher Breward, and Dr. Masafumi Monden. Dr. McNeil will analyze the style of the Duke of Windsor, arguably the most stylish man of the twentieth century, and the great impact his look had on Americans, especially as a young man in the 1920s. Dr. Breward will present a cross-cultural look at Ivy style as worn in the prestigious English universities of Oxford and Cambridge; he will also show how the look these young men cultivated would eventually be absorbed and re-interpreted in Hollywood films. Mr. Monden will write about the Ivy style craze that took hold in Japan from the mid-century to the present and its manifestation over the decades. Also included will be short excerpts by G. Bruce Boyer, a

leading menswear writer and historian, and an interview with Richard Press by Christian Chensvold, founder of the Ivy Style blog. Mr. Boyer's 1985 publication, *Elegance*, contained chapters on madras, Harris Tweed, the camelhair polo coat, and other elements of Ivy style. The importance of this period publication is that it not only documents these fabrics and clothing items, but also captures the atmosphere of a time when Ivy style experienced a great resurgence in popularity. Mr. Chensvold is the founder and main contributor to the leading blog documenting menswear, particularly Ivy style. The main essay of the publication (by Patricia Mears) will present a historical overview of the Ivy look in the twentieth century. Not only will the issues of the style's enduring popularity and its role as a cutting edge influence be discussed, so too will the cultural and aspirational aspects of its creation"--

Ranger Confidential Mar 12 2021 For twelve years, Andrea Lankford lived in the biggest, most impressive national parks in the world, working a job she loved. She chaperoned baby sea turtles on their journey to sea. She pursued bad guys on her galloping patrol horse. She jumped into rescue helicopters bound for the heart of the Grand Canyon. She won arguments with bears. She slept with a few too many rattlesnakes. Hell yeah, it was the best job in the world! Fortunately, Andrea survived it. In this graphic and yet surprisingly funny account of her and others' extraordinary careers, Lankford unveils a world in which park rangers struggle to maintain their idealism in the face of death, disillusionment, and the loss of a comrade killed while holding that thin green line between protecting the park from the people, the people from the park, and the people from each other. *Ranger Confidential* is the story behind the scenery of the nation's crown jewels—Yosemite, Grand Canyon, Yellowstone, Great Smokies, Denali. In these iconic landscapes, where nature and humanity constantly collide, scenery can be as cruel as it is redemptive.
