Adaptive Collaborative Management in Forest Landscapes Jan 28 2020 This book examines the value of Adaptive Collaborative Management for facilitating learning and collaboration with local communities and beyond, utilising detailed studies of forest landscapes and communities. Many forest management proposals are based on top-down strategies, such as the Million Tree Initiatives, Forest Landscape Restoration (FLR) and REDD+, often neglecting local communities. In the context of the climate crisis, it is imperative that local peoples and communities are an integral part of all decisions relating to resource management. Rather than being seen as beneficiaries or people to be safeguarded, they should be seen as full partners, and Adaptive Collaborative Management is an approach which prioritises the rights and roles of communities alongside the need to address the environmental crisis. The volume presents detailed case studies and real life examples from across the globe, promoting and prioritizing the voices of women and scholars and practitioners from the Global South who are often under-represented. Providing concrete examples of

ways that a bottom-up approach can function to enhance development sustainably, via its practitioners and far beyond the locale in which they initially worked, this volume demonstrates the lasting utility of approaches like Adaptive Collaborative Management that emphasize local control, inclusiveness and local creativity in management. This book will be of great interest to students, scholars and practitioners working in the fields of conservation, forest management, community development and natural resource management and development studies more broadly.

Fractures in Sport Jan 22 2022 This textbook provides

a practically applicable sport-centred guide to fracture management for athletes. It features extensive evidence-based guidance on how fracture management can be adapted in athletic patients, to facilitate an accelerated return to sport. Descriptions of a variety of both acute and stress fracture types are included, covering both the appendicular and axial skeleton, in locations such as the shoulder, knee, ankle and spine. Throughout the book, the focus is on enabling the reader to develop a deeper understanding of the ideal management principles that are available for managing fractures in high-functioning patients. Fractures in Sport comprehensively covers the available strategies for managing fractures in professional and amateur athletes, and is ideal for use by practising and trainee orthopaedic surgeons, sports physicians, and general practitioners.

Good Enough Nov 07 2020 The third novel in New York Times bestselling author Kelly Elliott's Meet Me in Montana series shows how family and true love can heal a broken past. After her mother died in a car accident when she was only five, and her father was determined not to show any emotions toward his only daughter, Timberlynn longs for a normal family. What she hadn't planned on was finding that family in Hamilton, Montana-thousands of miles away from everything she's ever known in Atlanta, Georgia. She certainly didn't plan on falling for Tanner Shaw. A handsome, charming, cowboy who swept her off her

feet the moment he looked at her with eyes the color of the Montana sky. Tanner Shaw was lost and confused...living a life without purpose, traveling between one city to the next. With a longing desire for something he could not quite pinpoint, he heads back to his hometown in Montana to spend Christmas with his family and clear his clouded head. One look at Timberlynn standing in his family's kitchen, and his entire world is turned upside down. Or was it? For once in his life, Tanner knew exactly what he wanted and was determined to prove to the only woman he had ever loved that what they shared was worth the risk. But winning Timberlynn Holden's heart wasn't going to be as easy as he thought. Can Tanner finally rope in the woman he loves, or will he be unable to help her mend her broken heart? Good Enough is a stand alone novel in the Meet Me in Montana series. Suggested reading order - 1. Never Enough 2. Always Enough 3. Good Enough 4. Strong Enough

Complications in Orthopaedics: Sports Medicine E-Book Oct 07 2020 One of the hallmarks of a master surgeon is the ability to navigate a wide variety of inevitable difficult situations in surgery, whether errors in judgment, technical mistakes, or unavoidable outcomes. Complications in Orthopaedic Surgery is a new series designed to provide real-world guidance on recognizing and avoiding errors, as well as how to "course-correct during surgery. In this inaugural volume dedicated to sports medicine surgery, series

editor Dr. Stephen R. Thompson and Dr. Matthew Schmitz describe and demonstrate practical solutions that are integral to improving patient outcomes. Covers a wide variety of procedures, including meniscus repair and transplantation, revision ACL reconstruction, pediatric ACL surgery, cartilage surgery in adults and children, knee osteotomies, acromioclavicular surgery, hip arthroscopy, and much more. Describes and offers solutions to the most common or most devastating errors and complications in the practice of sports medicine surgery, combining the breadth of knowledge of academic surgeons with the in-the-trenches skills of community surgeons. Uses an easy-to-follow, standardized chapter format that covers preoperative errors, intraoperative issues, and postoperative complications. Includes procedural video clips to reinforce discussions in the text. Features a full-color design with numerous photographs, radiographs, and illustrations.

On a Global Mission: The Automobiles of General Motors International Volume 3 Dec 01 2022 Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM.

Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

Tammy Wynette May 26 2022 The first full-scale biography of the enduring first lady of country music The twentieth century had three great female singers who plumbed the darkest corners of their hearts and transformed private grief into public dramas. In opera, there was the unsurpassed Maria Callas. In jazz, the tormented Billie Holiday. And in country music, there was Tammy Wynette. "Stand by Your Man," "D-I-V-O-R-C-E," "Take Me to Your World" are but a few highlights of Tammy's staggering musical legacy, all sung with a voice that became the touchstone for women's vulnerability, disillusionment, strength, and endurance. In *Tammy Wynette*, bestselling biographer Jimmy McDonough tells the story of the small-town girl who grew up to be the woman behind the microphone, whose meteoric rise led to a decades-long career full of tragedy and triumph. Through a high-profile marriage and divorce, her dreadful battle with addiction and illness, and the struggle to compete in a rapidly evolving Nashville, Tammy turned a brave smile toward the world and churned out masterful hit songs though her life resembled the most heartbreaking among them. *Tammy Wynette* is an intimate portrait of a music icon, the Queen of Heartbreak, whose powerful voice simultaneously evoked universal pain and longing even

as it belied her own.

Canadian Indian Cowboys in Australia Sep 17 2021 In 1939, a troupe of eight rodeo riders, accompanied by an RCMP officer, travelled to Sydney, Australia to compete in the Royal Easter Show. The men were expected to compete in various rodeo events, as well as to sell handicrafts at the fair's "Indian village," where they also camped. International competition in rodeo was very rare at the time, and the team proved to be a popular draw for Australian audiences. This little-

known moment in Canadian history is explored in Canadian Indian Cowboys in Australia.

The Everything Store Aug 29 2022 The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing.

The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

Cold Wind Dec 09 2020 Joe Pickett investigates a murder that hits close to home in this thriller in the #1 New York Times bestselling series. "I would say that C. J. Box is at the top of his form, but the top just keeps moving ever upward...A nonstop thrill ride not to be missed!"—Bookpage When Earl Alden is found dead, dangling from a wind turbine, his wife, Missy, is arrested. Unfortunately for Joe Pickett, Missy is his much-disliked mother-in-law, and he's not sure what to do—especially since it looks like Missy is guilty as sin. But then things happen to make Joe wonder: Is Earl's death what it appears to be? Is Missy being set up? He has the county DA and sheriff on one side, his wife on the other, his estranged friend Nate on a lethal mission of his own, and some powerful interests breathing down his neck. Whichever way this goes, it's not going to be good...

Lasso Peptides Dec 21 2021 Lasso peptides form a growing family of fascinating ribosomally-synthesized and post-translationally modified peptides produced by bacteria. They contain 15 to 24 residues and share a unique interlocked topology that involves an N-terminal 7 to 9-residue macrolactam ring where the C-terminal tail is threaded and irreversibly trapped. The ring

results from the condensation of the N-terminal amino group with a side-chain carboxylate of a glutamate at position 8 or 9, or an aspartate at position 7, 8 or 9. The trapping of the tail involves bulky amino acids located in the tail below and above the ring and/or disulfide bridges connecting the ring and the tail. Lasso peptides are subdivided into three subtypes depending on the absence (class II) or presence of one (class III) or two (class I) disulfide bridges. The lasso topology results in highly compact structures that give to lasso peptides an extraordinary stability towards both protease degradation and denaturing conditions. Lasso peptides are generally receptor antagonists, enzyme inhibitors and/or antibacterial or antiviral (anti-HIV) agents. The lasso scaffold and the associated biological activities shown by lasso peptides on different key targets make them promising molecules with high therapeutic potential. Their application in drug design has been exemplified by the development of an integrin antagonist based on a lasso peptide scaffold. The biosynthesis machinery of lasso peptides is therefore of high biotechnological interest, especially since such highly compact and stable structures have to date revealed inaccessible by peptide synthesis. Lasso peptides are produced from a linear precursor LasA, which undergoes a maturation process involving several steps, in particular cleavage of the leader peptide and cyclization. The post-translational modifications are ensured by a dedicated enzymatic

machinery, which is composed of an ATP-dependent cysteine protease (LasB) and a lactam synthetase (LasC) that form an enzymatic complex called lasso synthetase. Microcin J25, produced by *Escherichia coli* AY25, is the archetype of lasso peptides and the most extensively studied. To date only around forty lasso peptides have been isolated, but genome mining approaches have revealed that they are widely distributed among Proteobacteria and Actinobacteria, particularly in *Streptomyces*, making available a rich resource of novel lasso peptides and enzyme machineries towards lasso topologies.

Long Hard Ride Oct 26 2019 One lucky woman is in for the ride of her life with three sexy cowboys... During summer break, wannabe wild woman Channing Kinkaid is offered the chance to shed her inhibitions and horse around on the road with a real chaps-and-spurs wearing rodeo cowboy. From the moment Colby McKay-bull rider, saddle bronc buster and calf roper-sets his lust-filled eyes on the sweet and fiery Channing, he knows she's up to the challenge of being his personal buckle bunny. But he also demands that his rodeo traveling partners, Trevor and Edgard are allowed to join in their no-holds-barred sexcapades. Although Channing secretly longed to be the sole focus of more than one man's passions, all is not as it seems with the sexy trio. Colby's demand for her complete submission behind closed doors tests her willful nature, and his sweet-talking ways burrow into her heart. Will Colby

have to break out the bullropes and piggin' string to convince this headstrong filly that the road to true love doesn't have to be as elusive as that championship belt buckle? Warning: This story has tons of explicit sex, graphic language that'd make your mama blush, light bondage, menage a trois, and-yee-haw -hot nekkid cowboy man-love"

The Korean Automotive Industry, Volume 1 Oct 31 2022 In 1962, South Korea assembled just 1,100 new automobiles. By 1996, this total had soared to 2,812,714. What explains this remarkable growth? The answer is complex, and involves a combination of a supportive State, timely technology alliances, a skilled but historically low-paid workforce, aggressive pricing, savvy entrepreneurs, and fortuitous circumstances. Despite this amazing ascent, comparatively little has been written about the Korean auto industry in English. In the first of a two-volume set, this 11-chapter book seeks to help fill this void by providing in-depth examinations of all six of Korea's automakers from their beginnings through 1996. Uniquely written from the perspective of industry analysts at the time (without knowledge of the Asian Fiscal Crisis), the book should prove informative to practitioners, scholars, and students interested in automotive history, international political economy, Asian studies, and more.

Fire Lover Nov 19 2021 The hunt for the most prolific American arsonist of the twentieth century—in this Edgar Award-winning true crime story that's "stranger than fiction" (The New York Times). From Joseph Wambaugh, the #1 New York Times–bestselling author of such classics as *The Onion Field* and *The Choirboys*, comes the extraordinary story of the chase for the "Pillow Pyro," led by one ambitious firefighter. Growing up in Los Angeles, John Orr idolized law

enforcement. However, after being rejected by both the LAPD and LAFD, he settled for a position with the Glendale Fire Department. There, he rose through the ranks, eventually becoming a fire captain and one of Southern California's best-known and most respected arson investigators. But Orr led another, unseen life, one that included womanizing and an insatiable thirst for recognition. While Orr busted a slew of petty arsonists, there was one serial criminal he could not track down. Nothing was safe from the so-called Pillow Pyro's obsession. Homes, retail stores, and fields of dry brush all went up in flames. His handiwork led to millions of dollars worth of property damage and the deaths of four innocent bystanders. But after years of evading the police, he made a mistake—one that would turn Orr's life upside down. The Washington Post raves, "When [Joseph Wambaugh] talks about the culture of cops versus the culture of firemen, we get no speculation, only hard-earned details." Based on meticulous research, interviews, case records, and thousands of pages of court transcripts, *Fire Lover* is Wambaugh at his best.
