Contemporary Chinese Cinema and Visual Culture Jun 02 2020 Sheldon Lu's wide-ranging new book investigates how filmmakers and visual artists from mainland China, Hong Kong and Taiwan have envisioned China as it transitions from a socialist to a globalized capitalist state. It examines how the modern nation has been refashioned and re-imagined in order to keep pace with globalization and transnationalism. At the heart of Lu's analysis is a double movement in the relationship between nation and transnationalism in the Chinese post-socialist state. He considers the complexity of how the Chinese economy is integrated in the global capitalist system while also remaining a repressive body politic with mechanisms of control and surveillance. He explores the interrelations of the local, the national, the subnational, and the global as China repositions itself in the world. Lu considers examples from feature and documentary film, mainstream and marginal cinema, and a variety of visual arts: photography,

painting, digital video, architecture, and installation. His close case studies include representations of class, masculinity and sexuality in contemporary Taiwanese and Chinese cinema; the figure of the sex worker as a symbol of modernity and mobility; and artists' representations of Beijing at the time of the 2008 Olympics.

Guerrilla Television Oct 26 2019 This book presents ways to break the stranglehold of broadcast television on the American mind by using low-cost portable video-tape cameras, video cassettes, and cable television to design alternative television networks that favor portability and decentralization. The author's contention is that politics are obsolete and that information tools and tactics are a more powerful means of social change. To achieve true democracy, the author suggests that we develop a sense of media ecology in what he calls "media America," or the information environment. This is the first manual or how-to book for new media tools.

The Wu-Tang Manual Nov 07 2020 The Wu-Tang Manual is The RZA's first written introduction to the philosophy and history of Hip-Hop's original Dynasty, the Wu-Tang Clan.

Written in a style that is at once personal and philosophical, *The Wu-Tang Manual* unravels the intricate web of personalities (and alter egos), warrior codes, numerological systems, and Eastern spiritual ethics that define the Wu-Tang dynasty. Packed with information that reflects the breadth and depth of the RZA's — and rest of the Clan's — intellectual interests and passions, *The Wu-Tang Manual* is divided into four books of nine chambers each, for a total of 36 chambers. All together, the book provides the breakdown of essential Wu-Tang components, from basic information about each of the nine core members of Wu-Tang Clan to deeper explorations of the key themes of the Wu-Tang universe, a dictionary-like Wu-Slang lexicon, and an entire section of Wu-Tang lyrics with densely annotated explanations of what they mean. For the hardcore Wu-Tang disciple and the recent initiate alike, *The Wu-Tang Manual* is the definitive guide to the essence of Wu, one of the most innovative hip-hop groups of all time. The RZA's most recent book, *The Tao of Wu*, is also available from Riverhead Books.

Planning for Power Advertising Jun 26 2022 This book is a step-by-step guide to producing a sound foundation for advertising: one that will serve as the springboard to inspire powerful creative expression. Rich in cases from the evolving Indian context, *Planning for Power Advertising* offers an understanding of how strategic advertising is created. It takes the reader through cases and analyses of what worked or did not work in the marketplace. Anand Halve involves the reader throughout in exercises with Action Points at the end of most chapters—an approach that brings alive the concepts within, and helps readers discover the theory in practice. For advertising professionals, this is a manual to create a robust advertising brief. For students of advertising and marketing, *Planning for Power Advertising* is a simulation exercise from which they will learn how to apply the principles that will help them in their future careers. And for professionals in areas related to advertising—such as media, event management and PR—this book provides an insight into how the strategic underpinning of advertising is built.
