Mount of Aces Oct 26 2022 From the author of Fonthill Media's Fokker Fodder: The Royal Aircraft Factory B.E.2c, Mount of Aces: The Royal Aircraft Factory S.E.5a is a fitting testament to a legendary fighter. Arguably, the Sopwith Camel may be the best known British fighter plane of the First World War that took on the mighty and feared Jastas over the killing fields that were the trenches. However, almost all the highest scoring aces including McCudden and Mannock preferred the Royal Aircraft Factory S.E.5a. It was well-armed, fast, highly maneuverable and a superb gun platform, and yet it was easy and safe for even the most sketchily trained pilot to fly. The S.E.5a was deadly. Not only could it absorb punishment and turn on a penny, it packed a wallop with its .303 Vickers and .303 Lewis machine guns. Over 5,500 examples were produced in the war and Major Edward C. 'Mick' Mannock scored fifty of his seventy-three victories in the S.E.5a. The S.E.5a helped turn the tide of war in the Allies' favor. After the war, examples took part in air races and were employed in the 'sky-writings' industry for advertising purposes in both Britain and America. And today, all over the world, homebuilders are producing reproductions of the S.E.5a for sport and leisure flying, a fitting tribute to a design now nearly a century old and an appropriate memorial to the thousands of pilots who flew it in combat in defense of their country.

A Treasury of Royal Scandals Apr 27 2020 From Nero's nagging mother (whom he found especially annoying after taking her as his lover) to Catherine's stable of studs (not of the equine variety), here is a wickedly delightful look at the most scandalous royal doings you never learned about in history class. Gleeful, naughty, sometimes perverted-like so many of the crowned heads themselves-A Treasury of Royal Scandals presents the best (the worst?) of royal misbehavior through the ages. From ancient Rome to Edwardian England, from the lavish rooms of Versailles to the dankest corners of the Bastille, the great royals of Europe have excelled at savage parenting, deadly rivalry, pathological lust, and meeting death with the utmost indignity-or just very bad luck.

The Kingdom of Priam Mar 07 2021 How do regions form and evolve? What are the human

and geographical factors which help to unify a region, and what are the political considerations which limit integration and curtail co-operation between a region's communities? Through a diverse series of case studies focusing on the regional history of Lesbos and the Troad from the seventh century BC down to the first century AD, *The Kingdom of Priam* offers a detailed exploration of questions about regional integration in the ancient world. Drawing on a wide range of evidence - from the geography of Strabo and the botany of Theophrastos, to the accounts of eighteenth- and nineteenth-century travellers and the epigraphy, numismatics, and archaeology of the region - these case studies analyse the politics of processes of regional integration in the Troad and examine the insular identity of Lesbos, the extent to which the island was integrated into the mainland, and the consequences of this relationship for its internal dynamic. Throughout it is argued that although Lesbos and the Troad became ever more economically well-integrated over the course of this period, they nevertheless remained politically fragmented and were only capable of unified action at moments of severe crisis. These regional dynamics intersected in complex and often unexpected ways with the various imperial systems (Persian, Athenian, Macedonian, Attalid, Roman) which ruled over the region and shaped its internal dynamics, both through direct interventions in regional politics and through the pressures and incentives which these imperial systems created for local communities.

[Opening Israel's Scriptures Jun 29 2020](#) *Opening Israel's Scriptures* is a collection of thirty-six essays on the Hebrew Bible, from Genesis to Chronicles, which gives powerful insight into the complexity and inexhaustibility of the Hebrew Scriptures as a theological resource. Based on more than two decades of lectures on Old Testament interpretation, Ellen F. Davis offers a selective yet comprehensive guide to the core concepts, literary patterns, storylines, and theological perspectives that are central to Israel's Scriptures. Underlying the whole study is the primary assumption that each book of the canon has literary and theological coherence, though not uniformity. In both her close readings of individual texts and in her broad demonstrations of the coherence of whole books, Davis models the best practices of contemporary exegesis, integrating the insights of contemporary scholars with those of classical theological resources in Jewish and Christian traditions. Throughout, she keeps an eye to the experiences and concerns of contemporary readers, showing through multiple examples that the critical interpretation of texts is provisional, open-ended work--a collaboration across generations and cultures. Ultimately what she offers is an invitation into the more spacious world that the Bible discloses, which challenges ordinary conceptions of how things "really" are.

[Revisiting The Polite and Commercial People Jun 10 2021](#) For some time before his death in July 2015, former colleagues and students of Paul Langford had discussed the possibility of organising a festschrift to celebrate his remarkable contribution to eighteenth-century history. It was planned for 2019 to commemorate the thirtieth anniversary of the appearance of his seminal *A Polite and Commercial People*, the opening volume in the *New Oxford History of England* series, Paul's best-known and most influential publication. He was delighted to hear of these plans and the tragic news of his death only made the contributors more determined to see the project through to completion. The importance of *A Polite and Commercial People* within its own time is unquestionable. Not only did it provide a powerful new vision of

eighteenth-century Britain, but it also played a vital part in reviving interest in, and expanding ways of thinking about, Georgian history. As the thirteen contributors to this volume amply testify, any review of the field from the 1980s onwards cannot ignore the profound effect Paul's research had on the social and political publications in his field. This collection of essays combines reflection on the impact of Paul's work with further engagement with the central questions he posed. In particular, it serves to re-connect various recent avenues of Georgian studies, bringing together diverse themes present in Paul's scholarship, but which are often studied independently of each other. As such, it aims to provide a fitting tribute to Paul's work and impact, and a wider reassessment of the current direction of eighteenth-century studies.

On Royalty Apr 20 2022 The notable characteristic of the royal families of Europe is that they have so very little of anything remotely resembling true power. Increasingly, they tend towards the condition of pipsqueak principalities like Liechtenstein and Monaco—fancy-dress fodder for magazines that survive by telling us things we did not need to know about people we have hardly heard of. How then have kings and queens come to exercise the mesmeric hold they have upon our imaginations? In On Royalty renowned BBC journalist Jeremy Paxman examines the role of the British monarchy in an age when divine right no longer prevails and governing powers fall to the country's elected leaders. With intelligence and humor, he scrutinizes every aspect of the monarchy and how it has related to politics, religion, the military and the law. He takes us inside Buckingham Palace and illuminates the lives of the monarchs, at once mundane, absurd and magical. What Desmond Morris did for apes, Paxman has done for these primus inter primates: the royal families. Gilded history, weird anthropology and surreal reportage of the royals up close combine in On Royalty, a brilliant investigation into how an ancient institution struggles for meaning in a modern country.

Provincializing Global History Dec 16 2021 A microhistory of eighteenth-century systemic change that places ordinary French lives alongside global advances Provincializing Global History explores the subtle transformation of the coastal province of the Languedoc in the eighteenth century. Mining a wealth of archival sources, James Livesey unveils how provincial elites and peasant households unwittingly created new practices. Managing local political institutions, establishing new credit systems, building networks of natural historians, and introducing new plants and farm machinery to the region opened up the inhabitants of the province to new norms and standards. The practices were gradually embedded in daily life and allowed the province to negotiate the new worlds of industrial society and capitalism.

The Story of Ferdinand Jan 05 2021 A true classic with a timeless message! All the other bulls

run, jump, and butt their heads together in fights. Ferdinand, on the other hand, would rather sit and smell the flowers. So what will happen when Ferdinand is picked for the bullfights in Madrid? The Story of Ferdinand has inspired, enchanted, and provoked readers ever since it was first published in 1936 for its message of nonviolence and pacifism. In WWII times, Adolf Hitler ordered the book burned in Nazi Germany, while Joseph Stalin, the leader of the Soviet Union, granted it privileged status as the only non-communist children's book allowed in Poland. The preeminent leader of Indian nationalism and civil rights, Mahatma Gandhi—whose nonviolent and pacifistic practices went on to inspire Civil Rights leader Martin Luther King, Jr.—even called it his favorite book. The story was adapted by Walt Disney into a short animated film entitled Ferdinand the Bull in 1938. Ferdinand the Bull won the 1938 Academy Award for Best Short Subject (Cartoons).

Written in clear, accessible prose, and drawing on archival and oral traditions, the work considers global developments from a local/regional perspective.

[The Royal Aircraft Factory](#) Feb 24 2020 The story of the Royal Aircraft Factory at Farnborough, forerunner of the World's premier aeronautical research establishment wherein were designed a diversity of aircraft including many of those that equipped the RFC, RNAS and RAF during the First World War. Originally established to build observation balloons for the Victorian British Army, the Factory later expanded to employ over 3500 people by mid-1916, at which time it became the subject of a political controversy that ended in a judicial enquiry. In 1918 its title was changed to the Royal Aircraft Establishment, not only to avoid a clash of initials with the newly formed Royal Air Force but to better define its changing role. Each of the many designs for airships and aeroplanes that were produced by the Factory between 1908 and 1918 is described in detail, illustrated by photographs, and with three-view drawings provided for the more prominent designs.

[Bum Fodder](#) Oct 14 2021 This is the hidden history of an invention that we use every day but seldom dare to speak of. In medieval China it was cutting-edge technology. For 19th-century

Americans it was a newfangled alternative to dried corncobs and the Sears & Roebuck catalogue. Wits in Georgian London preferred pages of bad poetry. The sages of ancient Athens were content to wield the xylopongion instead. It's the tale of toilet paper; the biography of bumfodder. From its origins at the Imperial court of Emperor Hongwu to its reinvention as a quack remedy for haemorrhoids in 1870s New York city; from the Dutch and their mussel-shells to Henry VIII and his Groom of the Stool; from Madame de Prie's pioneering bidet to the space-age Washlet; from leaf-wielding chimpanzees to Mr Thirsty Fiber and the world's first three-adjective loo-roll - it's a story of necessity and invention, luxury and squalor, experiment and tradition. What does a submarine crew do when it runs out of toilet paper? Who stole the Pope's loo-roll? Does printer's ink cause piles? How do you fold a sheet of toilet paper in half more than seven times? What did 'bumphleteers' do, and why? Richard Smyth answers the questions you never thought to ask about the product we can't live without.
